GLOBAL INTELLECTUAL PROPERTY ASSIGNMENT

This GLOBAL INTELLECTUAL PROPERTY ASSIGNMENT (this "Assignment") is effective as of May 31, 2001 (the "Effective Date") by and among Rohm and Haas Asia, Inc., a Delaware corporation ("Seller"), and Dow AgroSciences LLC, a Delaware limited liability company ("Buyer").

BACKGROUND

WHEREAS, Seller and Buyer entered into an Asset Purchase Agreement dated as of March 7, 2001 (the "Asset Purchase Agreement"), pursuant to which Seller is selling, assigning, transferring and conveying certain assets to Buyer (including, without limitation, all of Seller's right, title and interest in the Intellectual Property (as defined therein)) and Buyer is purchasing such assets.

TERMS

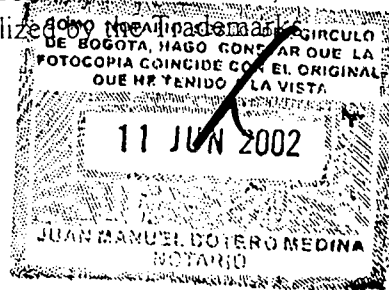

NOW THEREFORE, in consideration of the above premises and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, and with the intent to be legally bound, the parties hereto hereby agree as follows:

I. Capitalized terms used herein but not defined shall have the meanings given such terms in the Asset Purchase Agreement.

II. Effective as of the Effective Date, and subject to the terms and conditions of the Asset Purchase Agreement, Seller hereby sells, assigns, transfers and conveys the following assets (irrespective of where any such assets were issued, are pending or exist) (but excluding any such assets that constitute Seller Intellectual Property, Specified Supplies or other Excluded Assets) to Buyer to be held and enjoyed by Buyer for its own use and benefit and for its successors and assigns as the same would have been held by Seller had this Assignment not been made:

A. all right, title and interest in and to all registered and unregistered trademarks, trademark rights, service marks, service names, service mark rights, trade names, trade name rights, trade dress, slogans, logotypes and designs, and other indicia of origin, and any licenses relating to the foregoing, owned, controlled or held by Seller that are predominantly used or held for use in the Business (the "Trademarks"), together with all registrations and applications for registration of the Trademarks, (including, without limitation, the registrations and applications for registration shown in Schedule A hereto), all income, royalties, damages and payments now or hereafter due or payable with respect thereto, all claims, demands and rights to recovery that Seller has or may have for past and future infringements, dilution or other violations of such Trademarks, if any, and all rights to compromise, sue for, and collect on such claims, demands and rights to recovery, and the goodwill of the business symbolized by the Trademarks.

722905.4.01

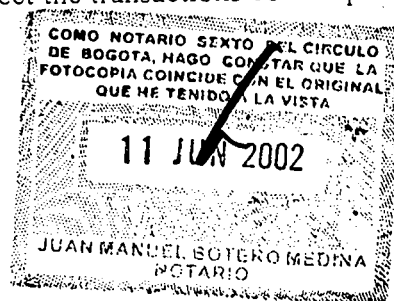

B. all right, title and interest in and to all patents, patent applications, inventions, invention disclosures, industrial design rights, trade secrets, formulae, know-how or technology, and any licenses relating to the foregoing, owned, controlled or held by Seller that are predominantly used or held for use in the Business (the "Patents"), (including, without limitation, the patents and patent applications shown in Schedule B hereto), including, without limitation, all reissues, divisions, continuations, continuations-in-part, extensions thereof, and supplementary protection certificates related thereto, all licenses of and proceeds from the Patents, all claims, demands and rights to recovery that Seller has or may have for past and future infringements, misappropriation or other violations of such Patents, if any, and all rights to compromise, sue for, and collect on such claims, demands and rights to recovery;

C. all right, title, and interest in and to all copyrights, neighboring rights or other intellectual property rights in or to any works of authorship, writings or compilations of information or data, and any licenses relating to the foregoing, owned, controlled or held by Seller that are predominantly used or held for use in the Business (collectively, the "Copyrights"), together with all registrations and applications for registration of the Copyrights (including, without limitation, the registrations and applications for registration shown in Schedule C hereto), all licenses of and proceeds from the Copyrights, all publishing, electronic publishing, and other proprietary rights arising from or related to the Copyrights, all claims, demands and rights to recovery that Seller has or may have for past and future infringements or other violations of such Copyrights, if any, and all rights to compromise, sue for, and collect on such claims, demands and rights to recovery;

D. all right, title, and interest in and to all domain names, URLs and Internet addresses owned, controlled by, held by, or licensed to Seller that are predominantly used or held for use in the Business (collectively, the "Domain Names"), all registrations of the Domain Names (including, without limitation, the registrations shown in Schedule D hereto), all licenses of, agreements relating to and proceeds from the Domain Names, all claims, demands and rights to recovery that Seller has or may have for past and future violations of Seller's rights in such Domain Names, if any, and all rights to compromise, sue for, and collect on such claims, demands and rights to recovery; and

E. all right, title and interest in and to any other Intellectual Property owned, controlled or held by Seller, all licenses of, agreements relating to and proceeds from any other Intellectual Property, all causes of action, claims, demands and rights to recovery, if any, relating to any other Intellectual Property that may have arisen prior to or may arise after the Effective Date, and any recovery resulting from such causes of action, claims, demands and rights to recovery; provided, however, that notwithstanding anything else contained in this Assignment to the contrary, Seller has not and does not hereby sell, assign, transfer or convey to Buyer any right title or interest in the Seller Intellectual Property.

III. Seller and Buyer shall each take, and shall cause their respective Affiliates to take, any and all additional actions as may be necessary or appropriate to effect the transactions contemplated

by this Assignment. Such actions may include, without limitation, the execution of additional documents to record the assignments and transfers made in this Assignment and the filing of such documents with the appropriate domestic and foreign governmental authorities. At Buyer's sole expense, after the Closing Date, Seller shall take, and shall cause its Affiliates to take, any and all actions that are necessary or appropriate to maintain any and all assets assigned under this assignment in force until such time that the Buyer can reasonably be expected to assume such obligations.

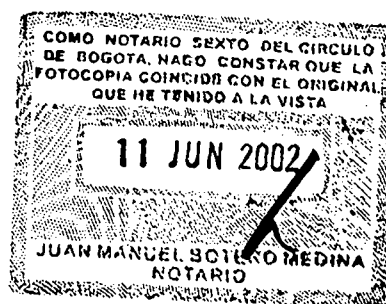

IV. In the event of a conflict between the terms and conditions of this Assignment and the terms and conditions of the Asset Purchase Agreement, the terms and conditions of the Asset Purchase Agreement shall govern, supersede and prevail.

V. Neither party hereto may assign, delegate or transfer its rights under this Assignment without the prior written consent of the other party hereto, except that Buyer may assign, delegate or transfer any such right without such consent. This Agreement is binding upon and shall inure to the benefit of the parties hereto and their respective successors and permitted assigns.

VI. Subject to applicable law, this Assignment may be amended, modified and supplemented by written instrument authorized and executed by Buyer and Seller at any time with respect to any of the terms contained herein. No waiver by any party hereto of any provisions hereof shall be effective unless explicitly set forth in writing and executed by the party so waiving. The waiver by either party hereto of a breach of any provisions of this Assignment shall not operate or be construed as a waiver of any other or subsequent breach.
