Yo, DILIA MARÍA RODRÍGUEZ D'ALEMAN, identificada como aparece al pie de mi firma, domiciliada en la Carrera 11 No. 86-53, piso 6, obrando como apoderada de la sociedad **ICEUTICA PTY LTD**, solicitante de la patente de la referencia, en respuesta al oficio No. 19982 notificado por fijación en lista el día 23 de Diciembre de 2011, atentamente me permito presentar:

1. Documentos donde consta la cesión del derecho a la patente otorgada por los inventores a favor de mi mandante.

Sobre los apartes en inglés, es importante resaltar que de conformidad con las normas legales vigentes, artículo 1 de la Resolución 210 de 2001, expedida por el Superintendente de Industria y Comercio y artículo 2 de la Convención de la Haya, el documento en inglés que se pretenda aportar como parte de los trámites de propiedad industrial ante la Superintendencia de Industria y Comercio no requieren traducción. Por otro lado, la legalización consular y/o diplomática de los documentos expedidos en el extranjero no es necesaria. Por lo tanto, los documentos anexos a este memorial son válidamente presentados en idioma inglés y con la correspondiente apostilla.

2. Documento de poder junto con el Certificado de Existencia y Representación Legal de dicha sociedad y con su respectiva traducción del inglés al español.

Espero con esto haber dado cabal cumplimiento a lo solicitado por ese despacho y de conformidad con lo indicado en los artículos 3º, inciso 3, 35 inciso 2 y 59 inciso 2 del CCA, al analizar este memorial, atentamente ruego se traten todas las cuestiones planteadas con motivo del mismo.

Deed of Acknowledgment and Assignment of Intellectual Property Rights

Date 2010

By

Adrian Russell of 139 Gladstone Road Rivervale, Western Australia 6103

Felix Meiser of 7 Beecham Road, Mt Claremount, Western Australia 6010

Marck Norret of 26 Stone Crescent Darlington, Western Australia 6070

(collectively, the Assignors)

In favour of

iCeutica Pty Ltd ACN 113 244 152 of 52 Fairfield Street, Mt Hawthorn, Western Australia 6016
(Assignee)

Background

- A. The Assignors did, in the ordinary course of their respective employment with the Assignee, conceive and/or develop the inventions listed in Schedule 1 (each an **Invention**) which are disclosed and/or claimed in the respective corresponding patent applications also listed or described in schedule 1 (**Patent Applications**).
- B. The Assignors and the Assignee wish to confirm, and to the extent necessary, assign to the Assignee, the Assignors' respective rights, title and interests in the Inventions and in the Patent Applications.

AGREED TERMS

- 1. Notwithstanding anything to the contrary herein, a reference in this Deed to an Assignor assigning rights, title or interest in an Invention or a Patent Application, making an acknowledgment, representation and/or confirmation with respect to an Invention or a Patent Application, refers to those Inventions and Patent Applications, each considered separately, which the Assignor invented solely or jointly with others.
- 2. Adrian Russell and Felix Meiser hereby acknowledge and represent that:
 - (a) the Inventions were conceived by Adrian Russell and Felix Meiser in their respective capacity as an employee of the Assignee and in the ordinary course of their respective ordinary duties of employment by the Assignee; and
 - (b) if and to the extent that the Adrian Russell and Felix Meiser were engaged by any third party concurrently with their respective engagement by the Assignee, conception of the Inventions was entirely outside the scope of their engagement with such third party.
- 3. Marck Norret hereby acknowledges and represent that:

- (a) his work on the Inventions after 1 July 2009 was in his capacity as an employee of the Assignee and in the ordinary course of his/her ordinary duties of employment by the Assignee; and
 - (b) if and to the extent that Marck Norret was engaged by any third party concurrently with his engagement by the Assignee, conception of the Inventions was entirely outside the scope of his engagement by such third party.
4. Each Assignor further hereby acknowledges and confirms that all rights, title and interest in the Inventions and Patent Applications, including but not limited to:
- (a) the right to apply for registration of a Patent Application, and to own all registrations derived therefrom including reissues, extensions, confirmations, re-examinations, and inventor's certificates;
 - (b) the right to sue and claim and retain damages and other remedies, including but not limited to an account of profits, for infringements of and/or wrongful interferences to a Patent Application whether or not such rights arose before the date of this Deed; and
 - (c) all rights, powers, liberties and immunities conferred on the proprietor of the patents or applications relating to a Invention,
- (collectively, the "**Assigned Rights**") were transferred and assigned to and vested in the Assignee absolutely at the time of filing each of the Patent Applications.
5. To the extent not already assigned, each Assignor hereby assigns to the Assignee his entire respective legal and beneficial right, title and interest in the Assigned Rights.
6. Each Assignor agrees to execute all such further documents and do all such further acts necessary to effect the assignment of the Assigned Rights to the Assignee as contemplated by this Deed.
7. Each Assignor hereby appoints the Assignee as the Assignor's attorney to do all acts and execute all documents on behalf of the Assignor to the extent necessary to vest the rights in the Assignee as contemplated by this Deed.
8. This Deed is governed by and must be construed in accordance with the laws in force in the State of Victoria. The parties submit to the exclusive jurisdiction of the courts of that State and the Commonwealth of Australia in respect of all matters arising out of or relating to this Deed, its performance or subject matter.
9. If this Deed consists of a number of signed counterparts, each is an original and all of the counterparts together constitute the same document.

Schedule 1 – Invention and corresponding Patent Applications

1. Invention: Production of encapsulated nanoparticles at high volume fractions

Inventors: Aaron Dodd, Felix Meiser, Marck Norett, Adrian Russell and William Bosch

Patent Applications:

Patent application no. PCT/AU2010/000464, filed on 24 April 2010 in the name of iCeutica Pty Ltd, and priority Australian Patent Application No. 2009901744 filed on 24 April 2009 and US Patent Application 61/172,278, also in the name of iCeutica Pty Ltd (**Provisional Applications 1**) and all patent applications that:

- (i) claim priority from Provisional Applications 1;
- (ii) disclose or claim the Invention or any aspect of it; or
- (iii) comprise continuations, continuations in part, divisions, re-issue or substitution of the patent applications described in paragraphs (i) and (ii) above and application for a substantially similar form of protection for the Invention granted by another country where the essence is that the holder of the protection gains an exclusive right to make, use and sell a product or process.

2. Invention: Production of encapsulated nanoparticles at commercial sales

Inventors: Aaron Dodd, Felix Meiser, Marck Norett, Adrian Russell and William Bosch

Patent Applications:

Patent application no. PCT/AU2010/000466, filed on 24 April 2010 in the name of iCeutica Pty Ltd, and priority Australian Patent Application No. 2009901740 filed on 24 April 2009 and US Patent Application 61/172,297 also in the name of iCeutica Pty Ltd (**Provisional Applications 2**) and all patent applications that:

- (i) claim priority from Provisional Applications 2;
- (ii) disclose or claim the Invention or any aspect of it; or
- (iii) comprise continuations, continuations in part, divisions, re-issue or substitution of the patent applications described in paragraphs (i) and (ii) above and application for a substantially similar form of protection for the Invention granted by another country where the essence is that the holder of the protection gains an exclusive right to make, use and sell a product or process.

3. Invention: Method for the production of commercial nanoparticle and microparticle powders

Inventors: Aaron Dodd, Felix Meiser, Marck Norett, Adrian Russell and William Bosch

Patent Applications:

Patent application no. PCT/AU2010/000467, filed on 24 April 2010 in the name of iCeutica Pty Ltd, and priority Australian Patent Application No. 2009901747 filed on 24 April 2009 and US Patent Application 61/172,300, also in the name of iCeutica Pty Ltd (**Provisional Applications 3**) and all patent applications that:

- (i) claim priority from Provisional Applications 3;

- (ii) disclose or claim the Invention or any aspect of it; or
- (iii) comprise continuations, continuations in part, divisions, re-issue or substitution of the patent applications described in paragraphs (i) and (ii) above and application for a substantially similar form of protection for the Invention granted by another country where the essence is that the holder of the protection gains an exclusive right to make, use and sell a product or process.

4. Invention: Method for improving the dissolution profile of a biologically active material

Inventors: Aaron Dodd, Felix Meiser, Marck Norett, Adrian Russell, Matt Callahan and William Bosch

Patent applications:

Patent application no. PCT/AU2010/000465, filed on 24 April 2010 in the name of iCeutica Pty Ltd, and priority Australian Patent Application No. 2009901741 filed on 24 April 2009 and US Patent Application 61/172,301, also in the name of iCeutica Pty Ltd (**Provisional Applications 4**) and all patent applications that:

- (i) claim priority from Provisional Applications 4;
- (ii) disclose or claim the Invention or any aspect of it; or
- (iii) comprise continuations, continuations in part, divisions, re-issue or substitution of the patent applications described in paragraphs (i) and (ii) above and application for a substantially similar form of protection for the Invention granted by another country where the essence is that the holder of the protection gains an exclusive right to make, use and sell a product or process.

5. Invention: A novel formulation of metaxalone

Inventors: Aaron Dodd, Felix Meiser, Marck Norett, Adrian Russell and William Bosch

Patent Applications:

Patent application no. PCT/AU2010/000468, filed on 24 April 2010 in the name of iCeutica Pty Ltd, and priority Australian Patent Application No. 2009901743 filed on 24 April 2009 and US Patent Application 61/172,281, also in the name of iCeutica Pty Ltd (**Provisional Applications 5**) and all patent applications that:

- (i) claim priority from Provisional Applications 5;
- (ii) disclose or claim the Invention or any aspect of it; or
- (iii) comprise continuations, continuations in part, divisions, re-issue or substitution of the patent applications described in paragraphs (i) and (ii) above and application for a substantially similar form of protection for the Invention granted by another country where the essence is that the holder of the protection gains an exclusive right to make, use and sell a product or process.

6. Invention: A novel formulation of meloxicam

Inventors: Aaron Dodd, Felix Meiser, Marck Norett, Adrian Russell and William Bosch

Patent Applications:

Patent application no. PCT/AU2010/000469, filed on 24 April 2010 in the name of iCeutica Pty Ltd, and priority Australian Patent Application No. 2009901742 filed on 24 April 2009 and US Patent Application 61/172,284, also in the name of iCeutica Pty Ltd (**Provisional Applications 6**) and all patent applications that:

- (i) claim priority from Provisional Applications 6;
- (ii) disclose or claim the Invention or any aspect of it; or
- (iii) comprise continuations, continuations in part, divisions, re-issue or substitution of the patent applications described in paragraphs (i) and (ii) above and application for a substantially similar form of protection for the Invention granted by another country where the essence is that the holder of the protection gains an exclusive right to make, use and sell a product or process.

7. Invention: A novel formulation of naproxen

Inventors: Aaron Dodd, Felix Meiser, Marck Norett, Adrian Russell and William Bosch

Patent Applications:

Patent application no. PCT/AU2010/000470, filed on 24 April 2010 in the name of iCeutica Pty Ltd, and priority Australian Patent Application No. 2009901746 filed on 24 April 2009 and US Patent Application 61/172,289, also in the name of iCeutica Pty Ltd (**Provisional Applications 7**) and all patent applications that:

- (i) claim priority from Provisional Applications 7;
- (ii) disclose or claim the Invention or any aspect of it; or
- (iii) comprise continuations, continuations in part, divisions, re-issue or substitution of the patent applications described in paragraphs (i) and (ii) above and application for a substantially similar form of protection for the Invention granted by another country where the essence is that the holder of the protection gains an exclusive right to make, use and sell a product or process.

8. Invention: A novel formulation of diclofenac

Inventors: Aaron Dodd, Felix Meiser, Marck Norett, Adrian Russell and William Bosch

Patent Applications:

Patent application no. PCT/AU2010/000471, filed on 24 April 2010 in the name of iCeutica Pty Ltd, and priority Australian Patent Application No. 2009901748 filed on 24 April 2009 and US Patent Application 61/172,291, also in the name of iCeutica Pty Ltd (**Provisional Applications 8**) and all patent applications that:

- (i) claim priority from Provisional Applications 8;
- (ii) disclose or claim the Invention or any aspect of it; or
- (iii) comprise continuations, continuations in part, divisions, re-issue or substitution of the patent applications described in paragraphs (i) and (ii) above and application for a substantially similar form of protection for the Invention granted by another country where the essence is that the holder of the protection gains an exclusive right to make, use and sell a product or process.

9. Invention: A novel formulation of indomethacin

Inventors: Aaron Dodd, Felix Meiser, Marck Norett, Adrian Russell and William Bosch

Patent Applications:

Patent application no. PCT/AU2010/000472, filed on 24 April 2010 in the name of iCeutica Pty Ltd, and priority Australian Patent Application No. 2009901745 filed on 24 April 2009 and US Patent Application 61/172,295, also in the name of iCeutica Pty Ltd (**Provisional Applications 9**) and all patent applications that:

- (i) claim priority from Provisional Applications 9;
- (ii) disclose or claim the Invention or any aspect of it; or
- (iii) comprise continuations, continuations in part, divisions, re-issue or substitution of the patent applications described in paragraphs (i) and (ii) above and application for a substantially similar form of protection for the Invention granted by another country where the essence is that the holder of the protection gains an exclusive right to make, use and sell a product or process.

Deed of Acknowledgment and Assignment of Intellectual Property Rights

Effective Date **April 23, 2009**

By

H. William Bosch of 237 Rodney Circle, Bryn Mawr, Pennsylvania 19010, United States of America

(the Assignor)

In favour of

iCeutica Pty Ltd ACN 113 244 152 of 52 Fairfield Street, Mt Hawthorn, Western Australia 6016
(Assignee)

Background

- A. The Assignor did, in the ordinary course of his respective employment with iCeutica, Inc., conceive and/or develop the inventions listed in Schedule 1 (each an **Invention**) which are disclosed and/or claimed in the respective corresponding patent applications also listed or described in schedule 1 (**Patent Applications**).
- B. The Assignor conceived and worked on the Inventions pursuant to the employment agreements between inventor and iCeutica, Inc., being the agreement dated 20 August 2007. Inventor and iCeutica, Inc. agreed that the intellectual property developed by the parties pursuant to those agreements would be owned by iCeutica, Inc.
- C. The Assignor and iCeutica Pty Ltd wish to: (i) confirm iCeutica, Inc.'s entitlement to assign to iCeutica Pty Ltd the Inventor's rights, title and interest in the Inventions and in the Patent Applications (as defined in the aforementioned employment contract), and (ii) to the extent necessary, assign to iCeutica Pty Ltd, any rights, title and interests the Inventor may have in the Inventions and Patent Applications that were not assigned to iCeutica Inc.

AGREED TERMS

- 1. Notwithstanding anything to the contrary herein, a reference in this Deed to an Assignor assigning rights, title or interest in an Invention or a Patent Application, making an acknowledgment, representation and/or confirmation with respect to an Invention or a Patent Application, refers to those Inventions and Patent Applications, each considered separately, which the Assignor invented solely or jointly with others.
- 2. H. William Bosch hereby acknowledges and represents that:
 - (a) the Inventions were conceived by H. William Bosch in his respective capacity as an employee of the iCeutica, Inc. and in the ordinary course of their respective ordinary duties of employment by the Assignee; and
 - (b) if and to the extent that H. William Bosch was engaged by any third party concurrently with their respective engagement by the Assignee, conception of the Inventions was entirely outside the scope of their engagement with such third party.

3. The Assignor further hereby acknowledges and confirms that all rights, title and interest in the Inventions and Patent Applications, including but not limited to:
 - (a) the right to apply for registration of a Patent Application, and to own all registrations derived therefrom including reissues, extensions, confirmations, re-examinations, and inventor's certificates;
 - (b) the right to sue and claim and retain damages and other remedies, including but not limited to an account of profits, for infringements of and/or wrongful interferences to a Patent Application whether or not such rights arose before the date of this Deed; and
 - (c) all rights, powers, liberties and immunities conferred on the proprietor of the patents or applications relating to a Invention,

(collectively, the "**Assigned Rights**") were transferred and assigned to and vested in the Assignee absolutely at the time of filing each of the Patent Applications.
4. To the extent not already assigned to iCeutica, Inc., the Assignor hereby assigns to iCeutica Pty Ltd. his entire respective legal and beneficial right, title and interest in the Assigned Rights.
5. The Assignor agrees to execute all such further documents and do all such further acts necessary to effect the assignment of the Assigned Rights to the Assignee as contemplated by this Deed.
6. The Assignor hereby appoints the Assignee as the Assignor's attorney to do all acts and execute all documents on behalf of the Assignor to the extent necessary to vest the rights in the Assignee as contemplated by this Deed.
7. This Deed is governed by and must be construed in accordance with the laws in force in the State of Victoria. The parties submit to the exclusive jurisdiction of the courts of that State and the Commonwealth of Australia in respect of all matters arising out of or relating to this Deed, its performance or subject matter.
8. If this Deed consists of a number of signed counterparts, each is an original and all of the counterparts together constitute the same document.
9. iCeutica, Inc. hereby assigns to iCeutica Pty Ltd. their entire respective legal and beneficial right, title and interest in the Assigned Rights listed in Schedule 1 (each an Invention) which are disclosed and/or claimed in the respective corresponding patent applications also listed or described in schedule 1 (Patent Applications).
10. iCeutica, Inc. further hereby acknowledges and confirms that all rights, title and interest in the Inventions and Patent Applications, including but not limited to:
 - (a) the right to apply for registration of a Patent Application, and to own all registrations derived therefrom including reissues, extensions, confirmations, re-examinations, and inventor's certificates;
 - (b) the right to sue and claim and retain damages and other remedies, including but not limited to an account of profits, for infringements of and/or wrongful interferences to a Patent Application whether or not such rights arose before the date of this Deed; and
 - (c) all rights, powers, liberties and immunities conferred on the proprietor of the patents or applications relating to a Invention,

(collectively, the "**Assigned Rights**") were transferred and assigned to and vested in the Assignee absolutely at the time of filing each of the Patent Applications.

Schedule 1 – Invention and corresponding Patent Applications

1. Invention: Production of encapsulated nanoparticles at high volume fractions

Inventors: Aaron Dodd, Felix Meiser, Marck Norett, Adrian Russell and William Bosch

Patent Applications:

Patent application no. PCT/AU2010/000464, filed on 24 April 2010 in the name of iCeutica Pty Ltd, and priority Australian Patent Application No. 2009901744 filed on 24 April 2009 and US Patent Application 61/172,278, also in the name of iCeutica Pty Ltd (**Provisional Applications 1**) and all patent applications that:

- (i) claim priority from Provisional Applications 1;
- (ii) disclose or claim the Invention or any aspect of it; or
- (iii) comprise continuations, continuations in part, divisions, re-issue or substitution of the patent applications described in paragraphs (i) and (ii) above and application for a substantially similar form of protection for the Invention granted by another country where the essence is that the holder of the protection gains an exclusive right to make, use and sell a product or process.

2. Invention: Production of encapsulated nanoparticles at commercial scales

Inventors: Aaron Dodd, Felix Meiser, Marck Norett, Adrian Russell and William Bosch

Patent Applications:

Patent application no. PCT/AU2010/000466, filed on 24 April 2010 in the name of iCeutica Pty Ltd, and priority Australian Patent Application No. 2009901740 filed on 24 April 2009 and US Patent Application 61/172,297 also in the name of iCeutica Pty Ltd (**Provisional Applications 2**) and all patent applications that:

- (i) claim priority from Provisional Applications 2;
- (ii) disclose or claim the Invention or any aspect of it; or
- (iii) comprise continuations, continuations in part, divisions, re-issue or substitution of the patent applications described in paragraphs (i) and (ii) above and application for a substantially similar form of protection for the Invention granted by another country where the essence is that the holder of the protection gains an exclusive right to make, use and sell a product or process.

3. Invention: Method for the production of commercial nanoparticle and microparticle powders

Inventors: Aaron Dodd, Felix Meiser, Marck Norett, Adrian Russell and William Bosch

Patent Applications:

Patent application no. PCT/AU2010/000467, filed on 24 April 2010 in the name of iCeutica Pty Ltd, and priority Australian Patent Application No. 2009901747 filed on 24 April 2009 and US Patent Application 61/172,300, also in the name of iCeutica Pty Ltd (**Provisional Applications 3**) and all patent applications that:

- (i) claim priority from Provisional Applications 3;

- (ii) disclose or claim the Invention or any aspect of it; or
- (iii) comprise continuations, continuations in part, divisions, re-issue or substitution of the patent applications described in paragraphs (i) and (ii) above and application for a substantially similar form of protection for the Invention granted by another country where the essence is that the holder of the protection gains an exclusive right to make, use and sell a product or process.

4. Invention: Method for improving the dissolution profile of a biologically active material

Inventors: Aaron Dodd, Felix Meiser, Marck Norett, Adrian Russell, and William Bosch

Patent applications:

Patent application no. PCT/AU2010/000465, filed on 24 April 2010 in the name of iCeutica Pty Ltd, and priority Australian Patent Application No. 2009901741 filed on 24 April 2009 and US Patent Application 61/172,301, also in the name of iCeutica Pty Ltd (**Provisional Applications 4**) and all patent applications that:

- (i) claim priority from Provisional Applications 4;
- (ii) disclose or claim the Invention or any aspect of it; or
- (iii) comprise continuations, continuations in part, divisions, re-issue or substitution of the patent applications described in paragraphs (i) and (ii) above and application for a substantially similar form of protection for the Invention granted by another country where the essence is that the holder of the protection gains an exclusive right to make, use and sell a product or process.

5. Invention: A novel formulation of metaxalone

Inventors: Aaron Dodd, Felix Meiser, Marck Norett, Adrian Russell and William Bosch

Patent Applications:

Patent application no. PCT/AU2010/000468, filed on 24 April 2010 in the name of iCeutica Pty Ltd, and priority Australian Patent Application No. 2009901743 filed on 24 April 2009 and US Patent Application 61/172,281, also in the name of iCeutica Pty Ltd (**Provisional Applications 5**) and all patent applications that:

- (i) claim priority from Provisional Applications 5;
- (ii) disclose or claim the Invention or any aspect of it; or
- (iii) comprise continuations, continuations in part, divisions, re-issue or substitution of the patent applications described in paragraphs (i) and (ii) above and application for a substantially similar form of protection for the Invention granted by another country where the essence is that the holder of the protection gains an exclusive right to make, use and sell a product or process.

6. Invention: A novel formulation of meloxicam

Inventors: Aaron Dodd, Felix Meiser, Marck Norett, Adrian Russell and William Bosch

Patent Applications:

Patent application no. PCT/AU2010/000469, filed on 24 April 2010 in the name of iCeutica Pty Ltd, and priority Australian Patent Application No. 2009901742 filed on 24 April 2009 and US Patent Application 61/172,284, also in the name of iCeutica Pty Ltd (**Provisional Applications 6**) and all patent applications that:

- (i) claim priority from Provisional Applications 6;
- (ii) disclose or claim the Invention or any aspect of it; or
- (iii) comprise continuations, continuations in part, divisions, re-issue or substitution of the patent applications described in paragraphs (i) and (ii) above and application for a substantially similar form of protection for the Invention granted by another country where the essence is that the holder of the protection gains an exclusive right to make, use and sell a product or process.

7. Invention: A novel formulation of naproxen

Inventors: Aaron Dodd, Felix Meiser, Marck Norett, Adrian Russell and William Bosch

Patent Applications:

Patent application no. PCT/AU2010/000470, filed on 24 April 2010 in the name of iCeutica Pty Ltd, and priority Australian Patent Application No. 2009901746 filed on 24 April 2009 and US Patent Application 61/172,289, also in the name of iCeutica Pty Ltd (**Provisional Applications 7**) and all patent applications that:

- (i) claim priority from Provisional Applications 7;
- (ii) disclose or claim the Invention or any aspect of it; or
- (iii) comprise continuations, continuations in part, divisions, re-issue or substitution of the patent applications described in paragraphs (i) and (ii) above and application for a substantially similar form of protection for the Invention granted by another country where the essence is that the holder of the protection gains an exclusive right to make, use and sell a product or process.

8. Invention: A novel formulation of diclofenac

Inventors: Aaron Dodd, Felix Meiser, Marck Norett, Adrian Russell and William Bosch

Patent Applications:

Patent application no. PCT/AU2010/000471, filed on 24 April 2010 in the name of iCeutica Pty Ltd, and priority Australian Patent Application No. 2009901748 filed on 24 April 2009 and US Patent Application 61/172,291, also in the name of iCeutica Pty Ltd (**Provisional Applications 8**) and all patent applications that:

- (i) claim priority from Provisional Applications 8;
- (ii) disclose or claim the Invention or any aspect of it; or
- (iii) comprise continuations, continuations in part, divisions, re-issue or substitution of the patent applications described in paragraphs (i) and (ii) above and application for a substantially similar form of protection for the Invention granted by another country where the essence is that the holder of the protection gains an exclusive right to make, use and sell a product or process.

9. Invention: A novel formulation of indomethacin

Inventors: Aaron Dodd, Felix Meiser, Marck Norett, Adrian Russell and William Bosch

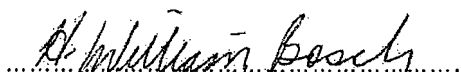

Patent Applications:

Patent application no. PCT/AU2010/000472, filed on 24 April 2010 in the name of iCeutica Pty Ltd, and priority Australian Patent Application No. 2009901745 filed on 24 April 2009 and US Patent Application 61/172,295, also in the name of iCeutica Pty Ltd (**Provisional Applications 9**) and all patent applications that:

- (i) claim priority from Provisional Applications 9;
- (ii) disclose or claim the Invention or any aspect of it; or
- (iii) comprise continuations, continuations in part, divisions, re-issue or substitution of the patent applications described in paragraphs (i) and (ii) above and application for a substantially similar form of protection for the Invention granted by another country where the essence is that the holder of the protection gains an exclusive right to make, use and sell a product or process.

Deed of Acknowledgment and Assignment of Intellectual Property Rights

Date 1st June 2010

By

Aaron Dodd of 368 / 58 Cook Road, Centennial Park NSW, 2021, (Inventor)

In favour of

iCeutica Pty Ltd ACN 113 244 152 of 52 Fairfield Street, Mt Hawthorn, Western Australia 6016 (iCeutica)

Background

- A. The Inventor did, in the ordinary course of his employment with the University of Western Australia (UWA), conceive and/or develop the inventions disclosed or claimed in the patent applications identified in Schedule 1 (each an **Invention**) which are disclosed and/or claimed in the respective corresponding patent applications also listed or described in Schedule 1 (**Patent Applications**).
- B. The Inventor conceived and worked on the Inventions pursuant to the research agreements between UWA and iCeutica, being the Agreement dated 1 May 2007 (as amended by the Deed of Variation dated 20 December 2007, the Variation of Research Contract dated 31 July 2008 and the Variation of Research Contract dated 9 March 2009) (**Research Agreement 1**) and the Agreement dated 9 March 2009 (**Research Agreement 2**). UWA and iCeutica agreed that the intellectual property developed by the parties pursuant to those agreements would be owned by iCeutica.
- B. The Inventor and the iCeutica wish to: (i) confirm UWA's entitlement to assign to iCeutica the Inventor's rights, title and interest in the Inventions and in the Patent Applications and Project IP (as defined in each of Research Agreement 1 and Research Agreement 2), and (ii) to the extent necessary, assign to iCeutica, any rights, title and interests the Inventor may have in the Inventions, Patent Applications and/or Project IP that were not assigned to UWA.

AGREED TERMS

- 1. The Inventor hereby acknowledges and represents that:
 - (a) the Inventions were conceived by the Inventor in his capacity as an employee of UWA and in the ordinary course of his duties of employment by UWA; and
 - (b) UWA owns the Inventor's rights, title and interest in the Inventions, Patent Applications and Project IP.
- 2. The Inventor further hereby acknowledges and confirms that all rights, title and interest in the Inventions, Patent Applications and Project IP, including but not limited to:
 - (a) the right to apply for registration of a Patent Application, and to own all registrations derived therefrom including reissues, extensions, confirmations, re-examinations, and inventor's certificates;

25

- (b) the right to sue and claim and retain damages and other remedies, including but not limited to an account of profits, for infringements of and/or wrongful interferences to a Patent Application whether or not such rights arose before the date of this Deed; and
- (c) all rights, powers, liberties and immunities conferred on the proprietor of the patents or applications relating to a Invention,

(collectively, the "Assigned Rights") were transferred and assigned to and vested in UWA absolutely at the time of creation.

- 3. To the extent not already assigned to UWA, the Inventor hereby assigns to iCeutica all legal and beneficial right, title and interest in the Assigned Rights he may have.
- 4. The Inventor agrees to execute all such further documents and do all such further acts necessary to effect the assignment of the Assigned Rights to iCeutica as contemplated by this Deed.
- 5. This Deed is governed by and must be construed in accordance with the laws in force in the State of Victoria. The parties submit to the exclusive jurisdiction of the courts of that State and the Commonwealth of Australia in respect of all matters arising out of or relating to this Deed, its performance or subject matter.
- 6. If this Deed consists of a number of signed counterparts, each is an original and all of the counterparts together constitute the same document.

Schedule 1 – Invention and corresponding Patent Applications

1. Invention: Production of encapsulated nanoparticles at high volume fractions

Inventors: Aaron Dodd, Felix Meiser, Marck Norret, Adrian Russell and William Bosch

Patent Applications:

Patent application no. PCT/AU2010/000464, filed on 24 April 2010 in the name of iCeutica Pty Ltd, and priority Australian Patent Application No. 2009901744 filed on 24 April 2009 and US Patent Application 61/172,278, also in the name of iCeutica Pty Ltd (**Provisional Applications 1**) and all patent applications that:

- (i) claim priority from Provisional Applications 1;
- (ii) disclose or claim the Invention or any aspect of it; or
- (iii) comprise continuations, continuations in part, divisions, re-issue or substitution of the patent applications described in paragraphs (i) and (ii) above and application for a substantially similar form of protection for the Invention granted by another country where the essence is that the holder of the protection gains an exclusive right to make, use and sell a product or process.

2. Invention: Production of encapsulated nanoparticles at commercial scales

Inventors: Aaron Dodd, Felix Meiser, Marck Norret, Adrian Russell and William Bosch

Patent Applications:

Patent application no. PCT/AU2010/000466, filed on 24 April 2010 in the name of iCeutica Pty Ltd, and priority Australian Patent Application No. 2009901740 filed on 24 April 2009 and US Patent Application 61/172,297 also in the name of iCeutica Pty Ltd (**Provisional Applications 2**) and all patent applications that:

- (i) claim priority from Provisional Applications 2;
- (ii) disclose or claim the Invention or any aspect of it; or
- (iii) comprise continuations, continuations in part, divisions, re-issue or substitution of the patent applications described in paragraphs (i) and (ii) above and application for a substantially similar form of protection for the Invention granted by another country where the essence is that the holder of the protection gains an exclusive right to make, use and sell a product or process.

3. Invention: Method for the production of commercial nanoparticle and microparticle powders

Inventors: Aaron Dodd, Felix Meiser, Marck Norret, Adrian Russell and William Bosch

Patent Applications:

Patent application no. PCT/AU2010/000467, filed on 24 April 2010 in the name of iCeutica Pty Ltd, and priority Australian Patent Application No. 2009901747 filed on 24 April 2009 and US Patent Application 61/172,300, also in the name of iCeutica Pty Ltd (**Provisional Applications 3**) and all patent applications that:

- (i) claim priority from Provisional Applications 3;

- (ii) disclose or claim the Invention or any aspect of it; or
- (iii) comprise continuations, continuations in part, divisions, re-issue or substitution of the patent applications described in paragraphs (i) and (ii) above and application for a substantially similar form of protection for the Invention granted by another country where the essence is that the holder of the protection gains an exclusive right to make, use and sell a product or process.

4. Invention: Method for improving the dissolution profile of a biologically active material

Inventors: Aaron Dodd, Felix Meiser, Marck Norret, Adrian Russell, Matt Callahan and William Bosch

Patent applications:

Patent application no. PCT/AU2010/000465, filed on 24 April 2010 in the name of iCeutica Pty Ltd, and priority Australian Patent Application No. 2009901741 filed on 24 April 2009 and US Patent Application 61/172,301, also in the name of iCeutica Pty Ltd (**Provisional Applications 4**) and all patent applications that:

- (i) claim priority from Provisional Applications 4;
- (ii) disclose or claim the Invention or any aspect of it; or
- (iii) comprise continuations, continuations in part, divisions, re-issue or substitution of the patent applications described in paragraphs (i) and (ii) above and application for a substantially similar form of protection for the Invention granted by another country where the essence is that the holder of the protection gains an exclusive right to make, use and sell a product or process.

5. Invention: A novel formulation of metaxalone

Inventors: Aaron Dodd, Felix Meiser, Marck Norret, Adrian Russell and William Bosch

Patent Applications:

Patent application no. PCT/AU2010/000468, filed on 24 April 2010 in the name of iCeutica Pty Ltd, and priority Australian Patent Application No. 2009901743 filed on 24 April 2009 and US Patent Application 61/172,281, also in the name of iCeutica Pty Ltd (**Provisional Applications 5**) and all patent applications that:

- (i) claim priority from Provisional Applications 5;
- (ii) disclose or claim the Invention or any aspect of it; or
- (iii) comprise continuations, continuations in part, divisions, re-issue or substitution of the patent applications described in paragraphs (i) and (ii) above and application for a substantially similar form of protection for the Invention granted by another country where the essence is that the holder of the protection gains an exclusive right to make, use and sell a product or process.

6. Invention: A novel formulation of meloxicam

Inventors: Aaron Dodd, Felix Meiser, Marck Norret, Adrian Russell and William Bosch

Patent Applications:

Patent application no. PCT/AU2010/000469, filed on 24 April 2010 in the name of iCeutica Pty Ltd, and priority Australian Patent Application No. 2009901742 filed on 24 April 2009 and US Patent Application 61/172,284, also in the name of iCeutica Pty Ltd (**Provisional Applications 6**) and all patent applications that:

- (i) claim priority from Provisional Applications 6;
- (ii) disclose or claim the Invention or any aspect of it; or
- (iii) comprise continuations, continuations in part, divisions, re-issue or substitution of the patent applications described in paragraphs (i) and (ii) above and application for a substantially similar form of protection for the Invention granted by another country where the essence is that the holder of the protection gains an exclusive right to make, use and sell a product or process.

7. Invention: A novel formulation of naproxen

Inventors: Aaron Dodd, Felix Meiser, Marck Norret, Adrian Russell and William Bosch

Patent Applications:

Patent application no. PCT/AU2010/000470, filed on 24 April 2010 in the name of iCeutica Pty Ltd, and priority Australian Patent Application No. 2009901746 filed on 24 April 2009 and US Patent Application 61/172,289, also in the name of iCeutica Pty Ltd (**Provisional Applications 7**) and all patent applications that:

- (i) claim priority from Provisional Applications 7;
- (ii) disclose or claim the Invention or any aspect of it; or
- (iii) comprise continuations, continuations in part, divisions, re-issue or substitution of the patent applications described in paragraphs (i) and (ii) above and application for a substantially similar form of protection for the Invention granted by another country where the essence is that the holder of the protection gains an exclusive right to make, use and sell a product or process.

8. Invention: A novel formulation of diclofenac

Inventors: Aaron Dodd, Felix Meiser, Marck Norret, Adrian Russell and William Bosch

Patent Applications:

Patent application no. PCT/AU2010/000471, filed on 24 April 2010 in the name of iCeutica Pty Ltd, and priority Australian Patent Application No. 2009901748 filed on 24 April 2009 and US Patent Application 61/172,291, also in the name of iCeutica Pty Ltd (**Provisional Applications 8**) and all patent applications that:

- (i) claim priority from Provisional Applications 8;
- (ii) disclose or claim the Invention or any aspect of it; or
- (iii) comprise continuations, continuations in part, divisions, re-issue or substitution of the patent applications described in paragraphs (i) and (ii) above and application for a substantially similar form of protection for the Invention granted by another country where the essence is that the holder of the protection gains an exclusive right to make, use and sell a product or process.

9. Invention: A novel formulation of indomethacin

Inventors: Aaron Dodd, Felix Meiser, Marck Norret, Adrian Russell and William Bosch

Patent Applications:

Patent application no. PCT/AU2010/000472, filed on 24 April 2010 in the name of iCeutica Pty Ltd, and priority Australian Patent Application No. 2009901745 filed on 24 April 2009 and US Patent Application 61/172,295, also in the name of iCeutica Pty Ltd (**Provisional Applications 9**) and all patent applications that:

- (i) claim priority from Provisional Applications 9;
- (ii) disclose or claim the Invention or any aspect of it; or
- (iii) comprise continuations, continuations in part, divisions, re-issue or substitution of the patent applications described in paragraphs (i) and (ii) above and application for a substantially similar form of protection for the Invention granted by another country where the essence is that the holder of the protection gains an exclusive right to make, use and sell a product or process.

The University of Western Australia ABN 37 882 817 280 a body corporate established pursuant to the provisions of the *University of Western Australia Act 1911* of 35 Stirling Highway, Crawley, Western Australia (University)

In favour of

iCeutica Pty Ltd ACN 113 244 152 of 52 Fairfield Street, Mt Hawthorn, Western Australia 6016 (iCeutica)

Background

- A. The University and iCeutica are parties to the Agreement dated 1 May 2007 (as amended by the Deed of Variation dated 20 December 2007, the Variation of Research Contract dated 31 July 2008 and the Variation of Research Contract dated 9 March 2009) (**Research Agreement 1**) and to the Agreement dated 9 March 2009 (**Research Agreement 2**), pursuant to which the University was engaged by iCeutica to undertake research in relation to nano-drugs.
- B. Pursuant to each of Research Agreement 1 and Research Agreement 2, the parties agreed that the intellectual property developed by the parties pursuant to those Agreements would be owned by iCeutica. This intellectual property comprises to date the inventions listed in Schedule 1 (each an **Invention**) and the patent applications also listed in Schedule 1 (**Patent Applications**).
- C. In accordance with the agreement and intentions of the parties pursuant to Research Agreement 1 and Research Agreement 2, the parties now wish for the Assigned Rights (defined below) to be assigned by the University to iCeutica pursuant to this Deed.

Agreed Terms

- 1. The University hereby assigns to iCeutica, with effect from creation, its entire rights, title and interest in the Project IP (as defined in each of Research Agreement 1 and Research Agreement 2), the Inventions and the Patent Applications, including but not limited to:
 - (a) the right to apply for registration of a Patent Application, and to own all registrations derived therefrom including reissues, extensions, confirmations, re-examinations, and inventor's certificates;
 - (b) the right to sue and claim and retain damages and other remedies, including but not limited to an account of profits, for infringements of and/or wrongful interferences to a Patent Application whether or not such rights arose before the date of this Deed; and
 - (c) all rights, powers, liberties and immunities conferred on the proprietor of the patents or applications relating to a Invention,(collectively, the "**Assigned Rights**").

2. The University agrees to execute all such further documents and do all such further acts necessary to effect the assignment of the Assigned Rights to iCeutica as contemplated by this Deed.
3. The University confirms and warrants it is entitled and it has the right to make the assignment under clause 1 and that no other person's consent is required in respect of the assignment of the Assigned Rights.
4. The University acknowledges that upon execution of this Deed, the University has no further rights (including intellectual property rights or otherwise) to ownership of the Assigned Rights and will make no further claim of whatsoever nature for monetary compensation or otherwise against iCeutica in relation to the creation of the Assigned Rights or the past or future use of the Assigned Rights by iCeutica.
5. iCeutica confirms and warrants that the persons named in Schedule 1 are to the best of the knowledge of iCeutica, the only inventors of the Inventions and entitled to be named on the relevant Patent Applications.
6. This Deed is governed by and must be construed in accordance with the laws in force in the State of Western Australia. The parties submit to the exclusive jurisdiction of the courts of that State and the Commonwealth of Australia in respect of all matters arising out of or relating to this Deed, its performance or subject matter.
7. If this Deed consists of a number of signed counterparts, each is an original and all of the counterparts together constitute the same document.
