DILIA RODRIGUEZ D'ALEMAN en mi condición de apoderada de la sociedad solicitante, por el presente escrito me permito allegar el complemento de la patente de la referencia, toda vez que a causa de un error involuntario, se omitió la página 5 que corresponde a la publicación internacional, la cual estoy adjuntando como parte de la solicitud mencionada.

Agradezco la atención y el trámite que se sirva dar a la presente.

De Usted, atentamente,

DILIA RODRIGUEZ D'ALEMAN

(54) Title: METHOD OF TREATING CANCER WITH HDAC INHIBITORS

(57) Abstract: The present invention relates to methods of treating cancers, e.g., mesothelioma or lymphoma. More specifically, the present invention relates to methods of treating mesothelioma or diffuse large B-cell lymphoma (DLBCL), by administration of pharmaceutical compositions comprising HDAC inhibitors, e.g., suberoylanilide hydroxamic acid (SAHA). The oral formulations of the pharmaceutical compositions have favorable pharmacokinetic profiles such as high bioavailability and surprisingly give rise to high blood levels of the active compounds over an extended period of time. The present invention further provides a safe, daily dosing regimen of these pharmaceutical compositions, which is easy to follow, and which results in a therapeutically effective amount of the HDAC inhibitors *in vivo*.
