E. S. D.

act

Trámite : 011
Evento : 378
Actuación : 523

Referencia : Expediente No. 15.030.257
Asunto : Solicitud de patente para: **"COMPOSICIONES PESTICIDAS QUE COMPRENDEN DERIVADOS DE 3-(PIRAZOL-1-IL) PIRIDINA"**
Solicitante : DOW AGROSCIENCES LLC
Fecha de solicitud : 02 de Mayo de 2013

1. Yo, Luz Clemencia DE PÁEZ, en mi condición de apoderada de la sociedad solicitante de la patente de la referencia, me refiero al oficio No. 2839 notificado por fijación en lista el 24 de Marzo de 2015.

2. Mediante memorial del 05 de Junio de 2015 se solicitó oportunamente plazo para responder la acción oficial No. 2839.

3. Mediante oficio No. 2839 se puso en conocimiento del solicitante el informe que contiene las observaciones hechas por su Despacho sobre la presente solicitud de patente. Las observaciones realizadas en el oficio se refieren a la claridad del título y a la materia que se sobrelapa con la materia de la solicitud parental.

4. Respuesta a las objeciones

De este modo y con el objeto de atender las objeciones arriba mencionadas, se desea presentar las siguientes modificaciones, aclaraciones y argumentos:

4.1. Modificación de una solicitud en trámite

De acuerdo con el artículo 34 de la Decisión 486 de la Comisión de la Comunidad Andina, donde se establece que la modificación de una solicitud es posible en cualquier

"EXCELENCIA LEGAL EN UN MUNDO SIN FRONTERAS"

momento del trámite mientras no implique una ampliación de la solicitud inicial, me permito presentar un nuevo pliego reivindicatorio conformado por 1 reivindicación.

Con el fin de atender a la objeción hecha por el señor examinador, se solicita el cambio de título de la presente solicitud de patente a:

“COMPOSICIONES PESTICIDAS QUE COMPRENDEN DERIVADOS DE 3-(PIRAZOL-1-IL) PIRIDINA”

Se han introducido las siguientes modificaciones al capítulo reivindicatorio:

- Se han eliminado los compuestos específicos 70, 142, 160, 164, 174, 175, 177, 181, 182, 203, 204, 209, 210, 211, 382, 427, 432, 482, 494, 495, 549, 550, 551, 555, 570, 571, 576, 577, 579 y 580 de la reivindicación 1. Por lo tanto, la materia de la presente solicitud divisional no se sobrelapa con la materia de la solicitud parental.

Así, las reivindicaciones son ahora muy claras y precisas en el momento de señalar la naturaleza de la invención reivindicada y es evidente que las características técnicas esenciales de la invención están establecidas.

Por lo anterior, las objeciones formuladas por el Examinador en cuanto a la claridad y concisión del pliego reivindicatorio se ven superadas. En consecuencia, se solicita atentamente tener en cuenta este nuevo pliego reivindicatorio para el nuevo análisis de patentabilidad.

4.2 Conclusión

De acuerdo a todos los argumentos presentados, la presente solicitud cumple a cabalidad con los requerimientos exigidos en la Decisión 486 y las objeciones formuladas por el Examinador se ven superadas.

5. Puesto que se ha dado respuesta a todas las objeciones formuladas por el Examinador, se solicita atentamente proceder al otorgamiento de la solicitud de patente. En este sentido, respetuosamente recordamos al Examinador que la patente no podrá ser negada con base en objeciones diferentes a las expuestas en la acción oficial No. 2839, toda vez que al no haber sido trasladadas a mi representada, dicha decisión violaría tanto

el tenor literal del artículo 45 de la Decisión 486 como el derecho constitucional al debido proceso. En este evento, y con base en el inciso 2 del artículo 45, respetuosamente solicitamos al Examinador expedir una nueva acción oficial que permita a mi representada contra argumentar las mismas o modificar la solicitud con el fin de cumplir los requisitos de patentabilidad.

De otro lado, respetuosamente manifiesto que a pesar de eliminar materia del pliego reivindicatorio originalmente presentado, mi representada no renuncia a la protección que pueda obtener sobre dicha materia y se reserva el derecho de presentar una solicitud divisional que la contenga durante el trámite de la presente solicitud, beneficiándose de la fecha de prioridad inicialmente reivindicada.

6. Anexos

- Nuevo pliego reivindicatorio conformado por 1 reivindicación

Señor Director,

LUZ CLEMENCIA DE PÁEZ

C.C. 35.456.344 de Usaquén

T.P.A. No. 23.555

REIVINDICACIONES

1. Una composición que comprende una de las siguientes moléculas y uno vehículo:
