Title: PROCESO PARA LA EVALUACION DE MATERIALES REPROCESADOS PROCESS FOR EVALUATING reprocessed materials
(Machine translation)

Abstract: Source: CO7290156A La presente invencion proporciona un proceso para evaluar la efectividad de reproceso al cual han sido sometidos dispositivos medicos que pretenden ser reutilizados y que comprende las etapas de: (I) ensayo microbiologico; (II) ensayo topografico; (III) ensayo composicional; (IV) ensayo mecanico; y opcionalmente (V) ensayos de soporte. The present invention provides a process for evaluating the effectiveness of reprocessing which have undergone medical devices that are intended to be reused and comprising the steps of: (I) microbiological testing; (II) topographic trial; (III) compositional testing; (IV) mechanical testing; and optionally (V) testing support.
