International filing date (day/month/year)
05.01.2017

Priority date (day/month/year)
08.01.2016

International Patent Classification (IPC) or both national classification and IPC
INV. C07D413/14 C07D413/10 C07D471/04 C07D473/08

Applicant
SYNGENTA PARTICIPATIONS AG

1. This opinion contains indications relating to the following items:

- ☒ Box No. I Basis of the opinion
- ☐ Box No. II Priority
- ☐ Box No. III Non-establishment of opinion with regard to novelty, inventive step and industrial applicability
- ☐ Box No. IV Lack of unity of invention
- ☒ Box No. V Reasoned statement under Rule 43*bis*.1(a)(i) with regard to novelty, inventive step and industrial applicability; citations and explanations supporting such statement
- ☐ Box No. VI Certain documents cited
- ☐ Box No. VII Certain defects in the international application
- ☐ Box No. VIII Certain observations on the international application

2. **FURTHER ACTION**

If a demand for international preliminary examination is made, this opinion will usually be considered to be a written opinion of the International Preliminary Examining Authority ("IPEA") except that this does not apply where the applicant chooses an Authority other than this one to be the IPEA and the chosen IPEA has notified the International Bureau under Rule 66.1*bis*(b) that written opinions of this International Searching Authority will not be so considered.

If this opinion is, as provided above, considered to be a written opinion of the IPEA, the applicant is invited to submit to the IPEA a written reply together, where appropriate, with amendments, before the expiration of 3 months from the date of mailing of Form PCT/ISA/220 or before the expiration of 22 months from the priority date, whichever expires later.

For further options, see Form PCT/ISA/220.

Box No. I Basis of the opinion

1. With regard to the **language**, this opinion has been established on the basis of:
 - ☒ the international application in the language in which it was filed.
 - ☐ a translation of the international application into , which is the language of a translation furnished for the purposes of international search (Rules 12.3(a) and 23.1 (b)).
2. ☐ This opinion has been established taking into account the **rectification of an obvious mistake** authorized by or notified to this Authority under Rule 91 (Rule 43bis.1(a))
3. ☐ With regard to any **nucleotide and/or amino acid sequence** disclosed in the international application, this opinion has been established on the basis of a sequence listing:
 - a. ☐ forming part of the international application as filed:
 - ☐ in the form of an Annex C/ST.25 text file.
 - ☐ on paper or in the form of an image file.
 - b. ☐ furnished together with the international application under PCT Rule 13ter.1(a) for the purposes of international search only in the form of an Annex C/ST.25 text file.
 - c. ☐ furnished subsequent to the international filing date for the purposes of international search only:
 - ☐ in the form of an Annex C/ST.25 text file (Rule 13ter.1(a)).
 - ☐ on paper or in the form of an image file (Rule 13ter.1(b) and Administrative Instructions, Section 713).
4. ☐ In addition, in the case that more than one version or copy of a sequence listing has been filed or furnished, the required statements that the information in the subsequent or additional copies is identical to that forming part of the application as filed or does not go beyond the application as filed, as appropriate, were furnished.
5. Additional comments:

Box No. V Reasoned statement under Rule 43bis.1(a)(i) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

1. Statement

Novelty (N)	Yes: Claims	<u>1-15</u>
	No: Claims	
Inventive step (IS)	Yes: Claims	<u>1-15</u>
	No: Claims	
Industrial applicability (IA)	Yes: Claims	<u>1-15</u>
	No: Claims	

2. Citations and explanations

see separate sheet

Re Item V

Reasoned statement with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

1 Reference is made to the following documents:

D1 WO 2015/185485 A1 (BASF SE [DE]) 10 December 2015
(2015-12-10) cited in the application

D2 EP 0 276 432 A2 (CIBA GEIGY AG [CH]) 3 August 1988
(1988-08-03)

2 Novelty

D1 and D2 disclose trifluoromethyl substituted oxadiazoles having microbiocidal activity. The present application differs from D1 and D2 due to the nature of linker between the phenyl or 6-membered heteroaryl ring and Z, and it further differs from D2 due to Z. Thus the subject matter of claims 1-15 meets the requirements of novelty pursuant to Article 33(2) PCT.

3 Inventive step

The present application discloses trifluoromethyl substituted oxadiazoles having microbiocidal activity. D1 is the closest prior art for the assessment of inventive step. The present application differs from D1 due to the absence of a carbonyl group between the phenyl or 6-membered heteroaryl ring and Z. As this difference does not result in any additional effect, the objective technical problem to be solved can be seen in the provision of further oxadiazoles having microbiocidal activity. The problem appears to have been solved by the present compounds of formula (I) which have the desired activity as shown on pages 134-137 of the description. Given the structural difference, it cannot be said with any degree of accuracy that the skilled person, faced with the problem of providing further compounds having microbiocidal activity, would have been unambiguously led to prepare the compounds of the present application. Hence the present application appears to meet the requirements of Article 33(3) PCT.
