Title: Cooking and grilling device.

Abstract: A cooking device for dry fuel, such as so-called dry methylated spirit, has a flat combustion space (3), which is bounded at the top by a cooking or grill plate (10), with at least one combustion point which is located at the beginning of a combustion gas pipe, at the end of which the inlet opening (27) of a chimney (6) is provided. The feet (4) with carrying handles (5) as well as the chimney (6) are provided on the housing (2) of the cooking device (1) so as to be repositionable or removable in such a way that, in one arrangement, they are suitable for operation as a cooking device and, in the other arrangement, for space-saving transportation. Furthermore, the cooking device can be reequipped in a simple manner for operation as a smoking device or the like.

Title: COOKING GRILL

Abstract: The invention is a cooking grill comprising a housing defining a cooking chamber and having a side opening therein, a heating element disposed in the cooking chamber, a drawer slidably disposed in the side opening, the drawer having a bottom tray and a front wall sized and positioned so as to substantially fill the side opening in the housing when the drawer is inserted in the housing, a grilling module adapted to sit in the drawer having a support portion for supporting a grilling surface thereon, and a removable grilling surface, wherein the drawer is adapted to be inserted into the side opening in either a first orientation in which the bottom tray is below the heating element and the support portion is above the heating element or a second orientation rotated 180 degrees from the first orientation in which the bottom tray is above the heating element and the support portion is below the heating element.

Title: MODULAR OUTDOOR COOKING SYSTEM

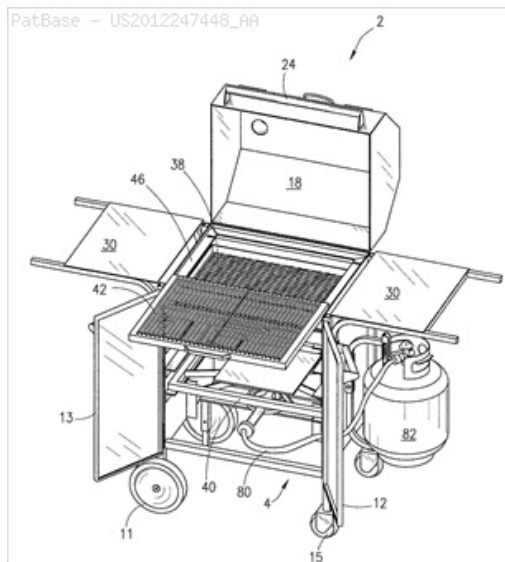

Abstract: A modular outdoor cooking system having a base, a lid pivotally connected to the base, and a set of cooking components. The cooking components include a charcoal grate component, a gas burner component, and a grill rack component. The base includes a series of first horizontal supports extending from an inner surface of a first side panel and a series of second horizontal supports extending from an inner surface of a second side panel. The first side panel is parallel to the second side panel. Each first horizontal support is vertically aligned with a second horizontal support creating aligned pairs of horizontal supports. The base also includes an upper support ledge extending along the first and second side panels and a back panel. Each cooking component may be temporarily positioned on an aligned pair of horizontal supports or the upper support ledge for adjustable cooking methods.

Title: A COMBINED TYPE OF BARBECUE OVEN

Abstract: A combined type of barbecue oven comprises a barbecue oven 1 and a coil base frame 5 provided with rollers. The barbecue oven 1 is mounted on the coil base frame 5, wherein the two ends of the supporting structure 2 of the barbecue oven 1 are provided with a **foldable** object placement plate 31. The object placement device 31 has one end wider than the other and is provided with reinforcing ribs underneath. An X-shaped supporting arm 2 is preferable provided with a vertical slot which has a width in between the length of both ends of the reinforcing plate 31 such that it can support the plate 31 when in a vertical position (fig.2). When being moved in a short distance, the barbecue oven 1 does not need to be moved, it only requires to mount the coil base frame 5 with an inclined side and provided with the rollers 53 and the barbecue oven 5 on the coil base frame 1, so that the whole combined type of barbecue oven can be dragged to move.

Title: APERFEICOAMENTOS INTRODUZIDOS EM CHURRASQUEIRA PORTATIL E DESMONTAVEL Improvements introduced IN BARBECUE PORTABLE is collapsible (Machine translation)

Abstract: Source: BR102015003752A [PT] RESUMO "APERFEICOAMENTOS INTRODUZIDOS EM CHURRASQUEIRA PORTATIL E DESMONTAVEL". A presente patente de Invencao trata de aperfeicoamentos Introduzidos em churrasqueira portatil e desmontavel (1) onde, notadamente, dita churrasqueira e formada por pecas avulsas e essencialmente tubulares, as quais, quando desmontadas, compoe um conjunto tubular (CN) passivel de acondldonar as demais pecas da churrasqueira e, quando montada para uso, apresenta-se formada por dois perfis tubulares (2A) e (2B) Interligadas por multiplas varetas (3) e (3c) que configuram a grelha (G) para o churrasco; os perfis tubulares (2A) e (2B) ainda recebem pes de apoio (4) que mantem a grelha afastada do solo ou plano de apoio. A churrasqueira (1), quando desmontada, e acondidonada em uma pequena embalagem (E) e pode ser acondidonada em bolsa, mochila ou outro fadlitando sua portabilidade e utilidade em qualquer local, tal como camping, praia, piqueniques, etc., bem como, facilita o armazenamento tanto para o comerdante durante a exposicao do produto, quanto para o consumidor. **Machine translation:** SUMMARY "improvements made BARBECUE IN PORTABLE is collapsible." The Invention of this patent comes to improvements made in portable grill and detachable (1) where, in particular, said grill and formed by loose and essentially tubular parts, which, when removed, composes a tubular assembly (CN) capable of acondldonar the rest of the grill parts and when mounted for use, presents itself formed by two tubular sections (2A) and (2B) interconnected by multiple rods (3) and (3c) which configure the grid (G) to the barbecue; the tubular sections (2A) and (2B) still receive support legs (4) holding the grid from the ground or supporting surface. The barbecue (1), when disassembled, and acondidonada in a small package (E) and can be acondidonada in purse, backpack or other fadlitando its portability and use in any location, such as camping, beach, picnics, etc., as well as facilitates storage for both comerdante during the exposure of the product and the consumer.

Title: COLLAPSIBLE CART

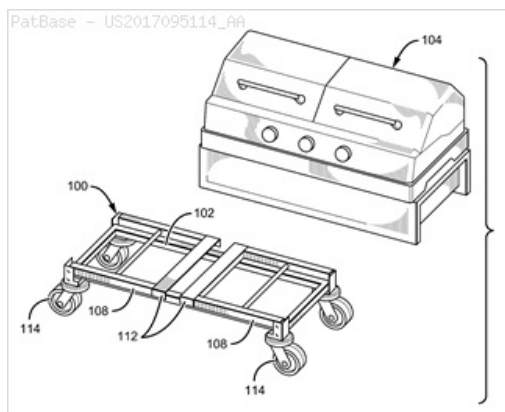

Abstract: A compact and easy to assemble grill cart to support a collapsible grill cart that includes a base portion, side portions, and a top portion that can be stored in a compact, **folded** configuration. The collapsible cart can be expanded or unfolded to provide a stable structure that can support a cooking unit, such as a grill, grill insert, or firebox. Such a collapsible grill cart can also include doors that provide enclosed storage space within the expanded cart and wheels to facilitate transportation.
