Abstract

(EP1558118)

Various systems are provided which may be used in a **beverage** machine for **dispensing** one or more, (in particular a plurality of) **beverage** types. A **beverage** machine may thus comprise one or more systems selected from the group consisting of i) a conveyance **system** for the **dispensing** of particulate material; ii) a **beverage** selection **system** providing for the possibility of selecting from among a class of **beverages**; and iii) a hot water **dispensing system** which may have a

system for detecting the absence of water in the fluid conduit component thereof.
