

CONFIDENTIAL AND PRIVILEGED ATTORNEY-CLIENT COMMUNICATION

March 8, 2019

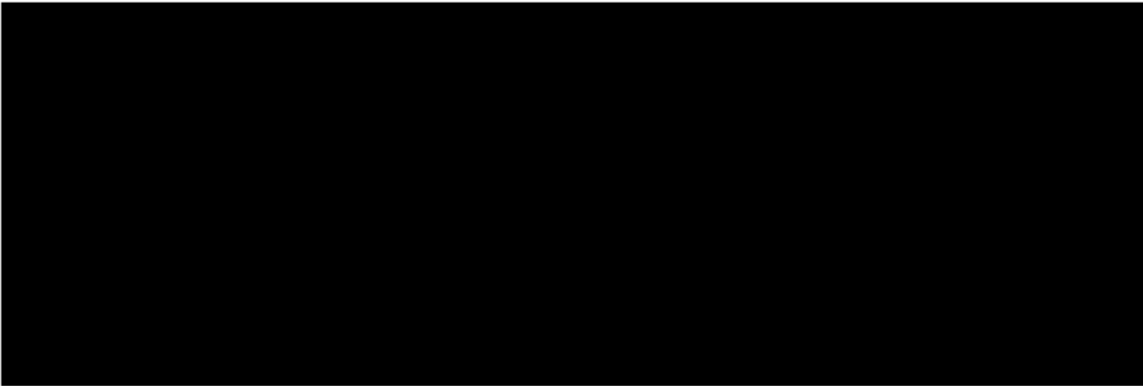

Via E-Mail

Thank you for your correspondence of November 22, 2018, and December 31, 2018, forwarding the First Examination Report for the above-referenced application. Please prepare and file a response based on our comments below before the due date of **March 13, 2019**. We rely on your expertise with Colombian law to suggest modifications to our proposals for our review if they do not comply with Colombian patent practice.

Claim Amendments

We enclose an amended claim set with changes tracked. Claim numbering and dependencies have been amended where appropriate. Support for the amended claims can be found throughout the application as filed. Thus, the amendments do not add new matter.

[REDACTED] please point out to the Examiner that amended claim 24 recites specific chemical structures and no longer refers to Table 1, rendering this objection moot.
