(54) Title: AUTHORIZATION METHOD FOR DISPLAYING CURRENT PERMISSIONS STATUS OF ALL SYSTEM USERS

(54) 发明名称: 显示所有系统使用者当前权限状态的授权方法

- AA Select one form
- BB Select one element item of one of the elements of the form
- CC After selection of element item, display all system users in the system and display current permissions status of system users for the selected element item
- DD Implement authorization for one or more system users for selected element item

图 5

(57) Abstract: An authorization method for displaying the current permissions status of all system users, comprising: selecting a form; selecting one element item of one of the elements of the form; displaying all system users in the system after the element item is selected, and displaying the current status of permissions of the various system users for the selected element item; and authorizing one or more of the system users for the selected element item. After all the system users of the system are displayed, the current permissions status of the various system users for the selected element item is displayed, so that on the basis of this, an authorization operator can modify
