

## PATENT ASSIGNMENT AGREEMENT

**THIS PATENT ASSIGNMENT AGREEMENT** ("Assignment Agreement") is effective the 1 day of October, 2020 ("Effective Date"), by and between Agrinos AS, its bankruptcy estate a Norwegian corporation ( "Assignor"), and AMVAC Chemical Corporation, a company organized under the laws of the state of California, USA ("Assignee").

**WHEREAS** the Assignor is the registered proprietor of the patents and patent applications listed on Exhibit A hereto ("Patents"); and

**WHEREAS** the Assignor and Assignee have entered into that certain IPR Purchase Agreement dated as of October 1, 2020 (the "IPR PA") pursuant to which, subject to the terms and conditions of the IPR PA, Assignor has agreed to assign and sell all its rights and interests in and to the Patents to Assignee;

**NOW THEREFORE**, the parties hereto agree as follows:

1. That for good and sufficient consideration the Assignor hereby transfers and assigns to the Assignee all of its rights, title and interest in and to the Patents, and any applications or registrations thereto, together with the goodwill attaching to the Patents and including the copyright associated with the Patents in the territories in which the Patents are registered or for which applications for registration have been made. Further, the parties agree that from the Effective Date the rights of the Assignor are to be held and enjoyed by Assignee for its own use and enjoyment, and for the use and enjoyment of its successors, assigns or other legal representatives, at common law and/or to the end of the term or terms for which registration of the Assignor's Patents may be granted or renewed, as fully and entirely as the same would have been held and enjoyed by Assignor if this Assignment and sale had not been made; together with all claims for damages by reason of past infringement of the Assignor's Patents with the right to sue for and collect the same for its own use and benefit, and for the use and on behalf of its successors, assigns or other legal representatives.
2. The Assignor agrees that not later than 1 December 2020 it will sign all documents and, at the cost of the Assignee, provide all reasonable assistance required by the Assignee to ensure that the assignment in terms of this Agreement into the name of the Assignee or its nominee is effected, recorded and perfected. Assignee shall be solely responsible in maintaining the Patents, at its own expenses from the Effective Date.
3. The Assignee hereby accepts all term and conditions of this assignment of all right, title, interest, and obligations of the Patents as of the Effective Date.

**4. Choice of Law; Jurisdiction:**

This Agreement shall be governed exclusively by and construed, interpreted and enforced exclusively in accordance with the laws of Norway without giving effect to the principles of conflicts of law thereof. This choice of laws shall not affect the scope of any state statute that by its terms is inapplicable to this Agreement, and nothing in this Agreement shall be considered to extend the scope of application of any of such statute.

All disputes arising in connection with the present agreement shall be finally settled pursuant to Article 8 of the IPR PA.
