(54) Title: DRUG LIBRARY MANAGEMENT SYSTEM

Fig. 5

(57) Abstract: The present disclosure is directed to management and use of drug libraries in a networked clinical environment. The clinical environment may include various types and/or versions of infusion pumps. An infusion pump operates using a drug library that describes the medications available for administration, rules for administration of the medications, clinical care areas in which the pump may operate, and the like. Different types or versions of infusion pumps may be configured to use different formats of drug library data. In addition, drug library data may be archived to maintain a history of changes.
