

ASSIGNMENT

WHEREAS, PureCircle USA/PureCircle USA, Inc. (hereinafter collectively "Assignor"), a corporation organized and existing under and by virtue of the laws of the State of Illinois and having a principal place of business located at 915 Harger Road, Suite 250, Oak Brook, Illinois 60623, owns the entire right, title, and interest in and to the inventions, and the United States and foreign Applications and Letters Patent that have been or may be issued thereon, and any improvements thereto, as listed in Attachment I of this Assignment; and

WHEREAS, PureCircle Sdn Bhd, (hereinafter "Assignee"), a corporation organized and existing under and by virtue of the laws of Malaysia and having a principal place of business located at Level 12, West Wing, Rohas Perkasa, No. 9 Jalan P. Ramlee, 50250 Kuala Lumpur, Malaysia, is desirous of acquiring the entire right, title, and interest in and to said inventions, the United States and foreign Letters Patent that have issued or may be issued thereon, and any improvements thereto;

NOW THEREFORE, Be It Known that for good and valuable consideration, the receipt of which is hereby acknowledged by the undersigned, the entire right, title, and interest of said Assignor in and to said inventions, Applications, and Letters Patent, the inventions disclosed and claimed therein, and any resultant patent or patents for said invention and any renewals, reexaminations, reissues, extensions, substitutions, continuations, continuations-in-part, or divisionals thereof, including all foreign patents or rights claiming the benefit of priority therefrom or relating thereto, as fully set forth and described in the specification of said Applications and Letters Patent, is hereby sold, assigned and transferred onto Assignee.

Pursuant to this Assignment, Assignor warrants that they have made no other assignment, license, transfer, grant, mortgage, encumbrance or other agreement regarding or affecting the rights and intellectual property interests in the inventions to or with any party other than Assignee without Assignee's prior knowledge of the same; and agree that they and their executors or legal representatives will make, execute, and deliver any and all written instruments including application papers, affidavits, assignments or other documents as requested by Assignee; will promptly communicate to Assignee any facts or circumstances known to Assignor regarding the conception or reduction to practice of the invention or improvements thereon; will cooperate with and testify on behalf of Assignee in any proceeding before the US Patent and Trademark Office, foreign patent office, state or federal court, or any administrative body or alternative dispute resolution forum; and generally do all things which may be desirable or necessary in the view of the Assignee to vest, obtain, secure, perfect, maintain, or enforce any rights under the invention, Application, Letters Patent, or similar proprietary intellectual property rights created or subsisting therein, or any improvements thereto, which are the subject of this Assignment.
