- (84) Designated States (*unless otherwise indicated, for every
kind of regional protection available*): ARIPO (BW, GH,

(54) Title: APPARATUS AND METHOD FOR COMBINED VISUAL INTELLIGENCE

FIG. 2

(57) Abstract: A method includes accessing a plurality of input images of a vehicle and categorizing each of the plurality of images into one of a plurality of categories. The method also includes determining one or more parts of the vehicle in each categorized image, determining a side of the vehicle in each categorized image, and determining a first list of damaged parts of the vehicle. The method also includes determining, using the categorized images, an identification of the vehicle; determining, using the plurality of input images, a second list of damaged parts of the vehicle; and aggregating, using one or more rules, the first and second lists of damaged parts of the vehicle in order to generate an aggregated list of damaged parts of the vehicle. The method also includes displaying a repair cost estimation for the vehicle.
