

Intellectual Property Assignment

Whereas, William Tally of Milford, Michigan, Jeffrey Dupuis of Royal Oak, Michigan, Victor Aldana of Farmington Hills, Michigan, Mitch O'Brien of Royal Oak, Michigan, Alex Ruffolo of Ferndale, Michigan, Jack Juni of Royal Oak, Michigan, and Thomas Reesbeck of Farmington Hills, Michigan (hereinafter referred to as "Assignors") have invented and/or created certain new and useful developments and/or improvements disclosed in international Patent Application serial number PCT/US2022/019184 titled "Water Treatment Modules and Method of Use thereof" and all provisional and national stage applications related to said international Patent Application.

Whereas, Renew Health Limited, having its business address at IDA Business and Technology Park, Garrycastle, Dublin Road, Athlone, Co. Westmeath, Ireland or its designee who may be designated in a separate writing referencing this assignment (hereinafter referred to as "Assignee") is desirous of acquiring the entire right, title, and interest, in and to said Patent Applications.

NOW THEREFORE, in consideration of the promises, mutual covenants and agreements contained herein and for other good and valuable consideration receipt of which is hereby acknowledged, Assignors hereby sell, assign, and transfer unto Assignee their full and exclusive worldwide rights, titles, and interests in said Patent Applications as well as divisionals, reissues, continuations, continuations-in-part, substitutions, designs, renewals, and reexaminations of said patent applications and including the full right to claim for any such patent application the benefits of the International Convention and the entire right to sue for and recover all profits and damages and all other remedies recoverable for past, present, and future infringement of the same in their own name.

It is hereby covenanted that Assignors have the full right to convey the entire interest herein assigned, and that Assignors have not executed and will not execute any agreement in conflict herewith.

Assignee, its successors, assigns, or other legal representatives shall have the right to obtain and hold as the owner of the entire right, title, and interest in and to the Patent Applications and any intellectual property which may be available or become available related to the Patent Applications, and the right to insert on this assignment any further identification which may be necessary or desirable in order to comply with the appropriate national or regional authority in each foreign country for recordation of this document.

Further, Assignors agree to communicate to Assignee or its representative any facts known to Assignors respecting said Patent Applications and to testify in any legal proceeding, to sign all lawful papers, renewals, declarations, affidavits and all necessary assignment papers to cause any other intellectual property rights to be issued to Assignee, to execute all divisional, continuation, continuation-in-part, substitution, renewal, reexamination, reissue applications, and to make all rightful oaths and generally do everything possible to aid Assignee, its successors, assigns, or other legal representatives, to obtain, maintain, enforce and properly protect said Patent applications in the United States and in all foreign countries.
