

ASSIGNMENT

WHEREAS, We, Eran Fogler, an Israeli citizen residing at 13 Yaelim St., POD 502, Meitar 8502500, Israel;

Michael Grabarnick, an Israeli citizen residing at 5 Shoval St., Meitar 8502500, Israel; and

David Silver, an Israeli citizen residing at 87/1 Irus Ha'Argaman St., Netanya 4201672, Israel;

are the inventors of an invention entitled "Compounds useful for the preparation of various agrochemicals and markers thereof", for which Provisional Patent Application No. 63/289,671 was filed on December 15, 2021; and

WHEREAS, Adama Agan Ltd., P.O. Box 262, Northern Industrial Zone, Ashdod, 7710001, Israel, hereinafter referred to as Assignee, is interested in obtaining the rights in respect to said invention and all patent applications related thereto, including the priority rights under the Paris convention;

NOW, THEREFORE, we hereby assign and transfer to said Assignee our rights in said invention and in all patent applications filed in respect thereto, including the aforementioned provisional patent application and the priority rights stemming therefrom, and including any international patent application and convention/non-convention patent application to be filed, any divisional applications, applications for patent of addition and continuation applications, and any patent that may be granted on said patent applications, including any national/regional patents deriving from said international patent application, for consideration duly received. We hereby undertake to sign all documents that may be required in any proceedings relating to the patent applications and patents rising therefrom, and to do anything to assist said Assignee in any examination or litigation proceedings associated with said invention and with said patent applications and/or patents, the costs of which will be borne by said Assignee.
