

ASSIGNMENT

For good and valuable consideration, the receipt of which we acknowledge, and intending to be bound legally, we, Kevin M. Oberg, Joshua D. Hansen, Matthew D. Correa, Jeffrey A. Engelman, James Paul Lajiness, Joel D. Levenson, Tami J. Marrone, Matthew H. McNeill, Mark A. Nagy, Kristin D. Schleicher, Andrew Valiere, and Ming Yan each individually, irrevocably, and perpetually assign and transfer, and confirm that we have previously assigned and transferred via our individual employment agreements, respectively, to TREELINE BIOSCIENCES, INC., a corporation formed under the laws of Delaware and having a principal place of business at 500 Arsenal Street, Watertown, MA 02472, and its successors, transferees, and assignees (collectively the "Assignee"), all of our individual and joint right, title, and interest throughout the world in the invention(s) (the "Subject Matter") described in a patent application that names us as inventors, which is titled "TRICYCLIC QUINOLONE BCL6 BIFUNCTIONAL DEGRADERS" and was filed in the United States Patent and Trademark Office as Receiving Office on June 5, 2023, as international application number PCT/US2023/067927 (the "Application").

This Assignment assigns, in addition to the Subject Matter, (a) the Application and all other applications that may be made for, and all patents, utility models, design registrations, and other rights of exclusion and inventors' certificates for, any of the Subject Matter (collectively the "Applications and Granted Rights") in every country or region and under every treaty or convention, (b) the right to claim priority to and the benefit of the filing date of any of the Applications and Granted Rights under the International Convention for the Protection of Industrial Property, the Patent Cooperation Treaty, the European Patent Convention, and all other applicable treaties or conventions, and (c) the right to pursue, collect, and retain in the Assignee's name or otherwise, damages and any other remedies arising from any past, present, or future infringement of the Subject Matter, the Applications and Granted Rights, and any other rights assigned by this Assignment, even if any such acts occurred prior to this Assignment.

We authorize the Assignee to apply for and pursue protection for and receive any or all of the Subject Matter, the Applications and Granted Rights, and any other rights assigned by this Assignment in all countries, regions, and territories of the world, in our names or in the Assignee's name.

We authorize the Assignee or its attorneys or agents to insert the application number and filing date into this assignment, if none is indicated on the date of our execution of this assignment.

We represent and warrant that we have the right and power to make this Assignment and that we have not made and will not make any other assignment that conflicts with this Assignment.

We further represent and warrant that we consent to and authorize the use of electronic signatures.

We waive and agree never to assert any Moral Rights in or with respect to the Applications and Granted Rights that may exist anywhere in the world, together with all claims for damages and other remedies asserted on the basis of Moral Rights. For purposes of this Agreement, "Moral Rights" means any right to claim authorship to or to object to any distortion, mutilation or other modification or other derogatory action in relation to a work, whether or not such action would be prejudicial to the author's reputation, and any similar right, existing under common or statutory law of any country in the world or under any treaty, regardless of whether or not such right is denominated or generally referred to as a "moral right".

We will promptly communicate to the Assignee (or, at the request of the Assignee to other parties) all known facts in any form relating to the Subject Matter; will execute and provide all oaths and declarations, statements, testimony, assignments, powers of attorney, applications, and documents; and will perform all other lawful acts necessary or desirable to secure fully to the Assignee the rights, titles, and interests assigned by this Assignment.

Kevin M. Oberg
