## CONFIRMATORY PATENT ASSIGNMENT

This Confirmatory Patent Assignment (“**Assignment**”), between Gilead Sciences, Inc., a corporation duly organized under and pursuant to the laws of Delaware and having an address at 333 Lakeside Drive, Foster City, CA 94404 (“**Assignee**”), and Analytical BioSciences Shanghai Limited (上海星赛生物科技有限公司) a limited liability company organized under the laws of the People’s Republic of China with its uniform social credit code 91310104MA1FRNW575 and having an address at Floor #5, Building #1, 315 Guiping Road, Xuhui District, Shanghai 200233, China (“**Assignor**”), is made effective as of November 15, 2024 (“**Assignment Effective Date**”).

WHEREAS, the Assignor is the record owner of certain patent applications described on Schedule A (“**Purchased Patents**”), which is incorporated herein and made a part hereof;

WHEREAS, Assignor and Assignee are parties to the Asset Purchase Agreement, dated as of November 14, 2024, as amended from time to time (the “**Agreement**”), and pursuant to the Agreement, the Assignee acquired from the Assignor, and the Assignor transferred to the Assignee, said Purchased Patents; and

WHEREAS, Assignee is desirous of acquiring the entire worldwide right, title and interest in and to the Purchased Patents.

NOW, THEREFORE, for good and valuable consideration, the receipt and adequacy of which is hereby acknowledged:

1. The Assignor hereby irrevocably assigns, transfers and conveys to the Assignee, its successors, legal representatives and assigns, and Assignee hereby accepts, the Assignor’s entire worldwide right, title and interest in and to all of the following (to have and hold forever, free and clear of all liens, restrictions or encumbrances) (collectively, the “**Assigned Patents and Applications**”):

- (a) the Purchased Patents and any patent issued therefrom;
- (b) all national, regional and international patents and patent applications filed in any country of the world, including provisional patent applications and all supplementary protection certificates, filed from the patent and patent application described in the foregoing clause (a);
- (c) all national, regional and international patents and patent applications filed in any country of the world, including provisional patent applications and all supplementary protection certificates, claiming priority to any of the patents and patent application described in the foregoing clause (a) or clause (b), including any continuation, continuation-in-part, divisional, provisional, converted provisional, and continued prosecution application, or any substitute application;

- (d) any patent issued with respect to or in the future issued from any of the patent applications described in the foregoing clauses (a)-(c), including utility models, petty patents, design patents, and certificates of invention;
- (e) any and all extensions or restorations by existing or future extension or restoration mechanisms, including revalidations, reissues, reexaminations, and extensions (including any supplementary protection certificates and the like) of the patents or patent applications described in the foregoing clauses (a)-(d);
- (f) all rights of any kind whatsoever of Assignor accruing under any of the foregoing provided by applicable law of any jurisdiction, by international treaties and conventions (including the Paris Convention for the Protection of Industrial Property and the Patent Cooperation Treaty), and otherwise throughout the world;
- (g) any and all royalties, fees, income, payments and other proceeds now or hereafter due or payable with respect to any of the foregoing; and
- (h) all claims and causes of action with respect to any of the foregoing, whether accruing before, on, or after the date hereof, including all rights to and claims for damages, restitution, and injunctive and other legal and equitable relief for past, present, and future infringement, misappropriation, violation, misuse, breach, or default, with the right but no obligation to sue for such legal and equitable relief and to collect, or otherwise recover, any such damages;

all of the foregoing to be held and enjoyed by said Assignee, for its own use and behalf and the use and behalf of its successors, legal representatives and assigns, to the full end of the term or terms of any and all Assigned Patents and Applications for which patents may be granted, as fully and entirely as the same would have been held and enjoyed by the Assignor, had this Assignment not been made.

2. To the extent that this Assignment contains any typographical or administrative error but it is clear which patent application or patent was intended to be included in the sale, assignment, transfer and conveyance under this Assignment, the Assignor and the Assignee each acknowledge and agree that the intended Purchased Patents is hereby assigned, transferred and conveyed, along with all other rights, privileges and claims enumerated above with respect to such intended Purchased Patents. Assignor, on behalf of itself, each of its current and future affiliates and any successors and assigns of any of the foregoing, agrees not to make any claim or argument in contravention of any of the foregoing.

3. Assignor shall, and shall cause its affiliates to, execute, acknowledge and deliver all such further conveyances, notices, assumptions, releases and acquittances and such other instruments (including, but not limited, for recordation with the appropriate governmental authorities), and take such further actions, as may be necessary or appropriate to assign fully to Assignee and its successors and assigns, all of the properties, rights, titles, interests, estates, remedies, powers and privileges intended to be conveyed to Assignee under this Assignment. If Assignee is unable for any reason to secure Assignor's or its affiliates or their respective successors' or assigns' signature to any document it is entitled to under this Assignment, Assignor and its affiliates hereby irrevocably

designates and appoints Assignee, and Assignee's duly authorized officers, agents and representatives, as its agents and attorneys-in-fact, coupled with an interest, with full power of substitution to act for and on the behalf and instead of Assignor, to execute and file any such document or documents and to do all other lawfully permitted acts to further the purposes of this Assignment with the same legal force and effect as if executed by Assignor. Assignor and its affiliates shall not enter into any agreement in conflict with this Assignment.

4. The Assignor hereby authorizes the Commissioner of Patents and Trademarks in the United States Patent and Trademark Office, and the corresponding entities or agencies in any applicable foreign countries or multinational authorities, to record and register the Assignee as the assignee and owner of the Assigned Patents and Applications and to deliver to the Assignee, and to the Assignee's attorneys, agents, successors or assigns, all official documents and communications as may be warranted by this Assignment.

5. This Assignment will be governed by and construed in accordance with the laws of the State of New York without giving effect to the application of any conflict of laws principles that would require application of the laws of another jurisdiction. The parties further submit to and waive any objections to the exclusive jurisdiction of and venue in any state or federal court located in New York, New York, U.S.A. for any dispute arising out of this Assignment.

6. If any term or other provision of this Assignment is determined by a court of competent jurisdiction to be invalid, illegal, or incapable of being enforced by any rule of law or public policy, all other terms, provisions and conditions of this Assignment shall nevertheless remain in full force and effect and shall in no way be affected, impaired or invalidated. Upon such determination that any term or other provision is invalid, illegal, or incapable of being enforced, the parties shall negotiate in good faith to modify this Assignment so as to effect the original intent of the parties as closely as possible to the fullest extent permitted by applicable law in an acceptable manner to the end that this Assignment is fulfilled to the greatest extent possible.

7. This Assignment shall be binding upon and shall inure to the benefit of the parties hereto and their respective successors and assigns.

8. This Assignment may be executed in multiple counterparts, each of which will be deemed to be an original copy of this Assignment and all of which, when taken together, will be deemed to constitute one and the same agreement. The exchange of a fully executed Assignment (in counterparts or otherwise) by electronic transmission in .PDF format or by facsimile shall be sufficient to bind the parties to the terms and conditions of this Assignment.
