TO ALL TO WHOM THESE PRESENTS SHALL COME:

UNITED STATES DEPARTMENT OF COMMERCE

United States Patent and Trademark Office

March 26, 2025

**THIS IS TO CERTIFY THAT ANNEXED IS A TRUE COPY FROM THE
RECORDS OF THIS OFFICE OF THE APPLICATION AS FILED FOR:**

TRADEMARK SERIAL: 98/958,402

FILING DATE: January 13, 2025

**By Authority of the
Under Secretary of Commerce for Intellectual Property
and Director of the United States Patent and Trademark Office**

Miguel Tarver

**Miguel Tarver
Certifying Officer**

Trademark/Service Mark Application, Principal Register

Serial Number: 98958402

Filing Date: 01/13/2025

The table below presents the data as entered.

Input Field	Entered
SERIAL NUMBER	98958402
MARK INFORMATION	
*MARK	<u>NEXPRING HEALTH</u>
STANDARD CHARACTERS	YES
USPTO-GENERATED IMAGE	YES
LITERAL ELEMENT	NEXPRING HEALTH
MARK STATEMENT	The mark consists of standard characters, without claim to any particular font style, size, or color.
REGISTER	Principal
APPLICANT INFORMATION	
*OWNER OF MARK	HTL Holdings Inc.
INTERNAL ADDRESS	Suite 465E
*MAILING ADDRESS	100 Cummings Center
*CITY	Beverly
*STATE (Required for U.S. applicants)	Massachusetts
*COUNTRY/REGION/JURISDICTION/U.S. TERRITORY	United States
*ZIP/POSTAL CODE (Required for U.S. and certain international addresses)	01915
*EMAIL ADDRESS	XXXX
LEGAL ENTITY INFORMATION	
TYPE	corporation
STATE/COUNTRY/REGION/JURISDICTION/U.S. TERRITORY OF INCORPORATION	Delaware
GOODS AND/OR SERVICES AND BASIS INFORMATION	
INTERNATIONAL CLASS	005
*IDENTIFICATION	Culture media for use in assisted reproductive technology procedures, for use in fertility treatments, for in vitro fertilization purposes; Cryopreservation media for use in assisted reproductive technology procedures, for use in fertility treatments, for in vitro fertilization purposes; Cryopreservation media for use in in vitro fertilization, comprising sperm freezing medium, in vitro fertilization medium, and cryoprotectants; Kits for cryopreservation of gametes,

	comprising sperm freezing medium, in vitro fertilization medium, cryoprotectants
FILING BASIS	SECTION 1(b)
INTERNATIONAL CLASS	009
*IDENTIFICATION	Imaging apparatus and instruments for use in assisted reproductive technology procedures, for use in fertility treatments, for in vitro fertilization purposes; Micromanipulation systems for use in assisted reproductive technology procedures, for use in fertility treatments, for in vitro fertilization purposes; Laser systems for use in assisted reproductive technology procedures, for use in fertility treatments, for in vitro fertilization purposes; Confocal microscopy systems for embryo assessment; Micromanipulation systems for assisted hatching and other embryo manipulations; Laser systems for assisted hatching and other embryo manipulations; Environmental control equipment for use in assisted reproductive technology procedures, for use in fertility treatments, for in vitro fertilization purposes; Incubators for laboratory use in the fields of assisted reproductive technology procedures, fertility treatments, and in vitro fertilization; Incubators, namely, constant temperature and humidity incubators for laboratory use in the fields of assisted reproductive technology procedures, fertility treatments, and in vitro fertilization; Gas incubation systems for laboratory use in the fields of assisted reproductive technology procedures, fertility treatments, and in vitro fertilization; Monitoring, measuring, and control equipment for use in the monitoring, measuring, and controlling of gas concentration within the chamber of an incubator for laboratory use in the fields of assisted reproductive technology procedures, fertility treatments, and in vitro fertilization; Vibration control or isolation systems for laboratory equipment used in the fields of assisted reproductive technology procedures, fertility treatments, and in vitro fertilization; Anti-vibration tables and platforms for laboratory equipment used in the fields of assisted reproductive technology procedures, fertility treatments, and in vitro fertilization; Laboratory equipment and supplies used in the fields of assisted reproductive technology procedures, fertility treatments, and in vitro fertilization; Laboratory equipment and supplies, namely, pipettes, catheters, cannulas, needles used in the fields of assisted reproductive technology procedures, fertility treatments, and in vitro fertilization; Downloadable or recorded software for aiding in the provision or performance of assisted reproductive technology procedures and fertility treatments, for aiding professionals who provide or perform assisted reproductive technology procedures and fertility treatments
FILING BASIS	SECTION 1(b)
INTERNATIONAL CLASS	010
	Medical imaging apparatus and instruments for use in assisted reproductive technology procedures, for use in fertility treatments, for in vitro fertilization; Surgical apparatus and instruments for use in assisted reproductive technology procedures, for use in fertility treatments, for in vitro fertilization; Medical devices for use in assisted reproductive technology procedures, for use in fertility treatments, for in vitro fertilization; Medical apparatus and instruments for use in

*IDENTIFICATION	assisted reproductive technology procedures, for use in fertility treatments, for in vitro fertilization; Catheters and parts and fittings therefor for use in assisted reproductive technology procedures, for use in fertility treatments, for in vitro fertilization; Embryo transfer catheters and parts and fittings therefor; Needles for medical purposes for use in assisted reproductive technology procedures, for use in fertility treatments, for in vitro fertilization; Surgical needles for use in assisted reproductive technology procedures, for use in fertility treatments, for in vitro fertilization; Ovum pickup needles; Pipettes for use in assisted reproductive technology procedures, for use in fertility treatments, for in vitro fertilization; Cannulas for use in assisted reproductive technology procedures, for use in fertility treatments, for in vitro fertilization; Micromanipulation instruments for use in assisted reproductive technology procedures, for use in fertility treatments, for in vitro fertilization; Embryo biopsy instruments; Laser systems for assisted hatching and other embryo manipulations for use in assisted reproductive technology procedures, for use in fertility treatments, for in vitro fertilization; Incubators for use in assisted reproductive technology procedures; Incubators used for in vitro fertilization purposes; Vibration control or isolation systems for medical equipment used in the fields of assisted reproductive technology procedures, fertility treatments, and in vitro fertilization; Anti-vibration tables and platforms for medical equipment used in the fields of assisted reproductive technology procedures, fertility treatments, and in vitro fertilization
FILING BASIS	SECTION 1(b)
INTERNATIONAL CLASS	042
*IDENTIFICATION	Scientific research and development in the fields of assisted reproductive technologies, fertility treatments, and in vitro fertilization; Quality control for others in the fields of assisted reproductive technologies; Testing the functionality of apparatus and instruments used in assisted reproductive technology procedures, used in fertility treatments, used in in vitro fertilization; Product testing of apparatus and instruments used in assisted reproductive technology procedures, used in fertility treatments, used in in vitro fertilization; Performance testing of apparatus and instruments used in assisted reproductive technology procedures, used in fertility treatments, used in in vitro fertilization; Providing on-line non-downloadable software for aiding in the provision or performance of assisted reproductive technology procedures and fertility treatments, for aiding professionals who provide or perform assisted reproductive technology procedures and fertility treatments; Software as a service (SAAS) services featuring software for aiding in the provision or performance of assisted reproductive technology procedures and fertility treatments, for aiding professionals who provide or perform assisted reproductive technology procedures and fertility treatments
FILING BASIS	SECTION 1(b)
ATTORNEY INFORMATION	
NAME	Joseph R. Dages
ATTORNEY DOCKET NUMBER	HATH-0106

ATTORNEY BAR MEMBERSHIP NUMBER	XXX
YEAR OF ADMISSION	XXXX

DATE SIGNED	01/13/2025
SIGNATURE METHOD	Signed directly within the form

Trademark/Service Mark Application, Principal Register

Serial Number: 98958402

Filing Date: 01/13/2025

To the Commissioner for Trademarks:

MARK: NEXPRING HEALTH (Standard Characters, see mark)

The literal element of the mark consists of NEXPRING HEALTH. The mark consists of standard characters, without claim to any particular font style, size, or color.

The applicant, HTL Holdings Inc., a corporation of Delaware, having an address of

Suite 465E
100 Cummings Center
Beverly, Massachusetts 01915
United States
XXXX

requests registration of the trademark/service mark identified above in the United States Patent and Trademark Office on the Principal Register established by the Act of July 5, 1946 (15 U.S.C. Section 1051 et seq.), as amended, for the following:

International Class 005: Culture media for use in assisted reproductive technology procedures, for use in fertility treatments, for in vitro fertilization purposes; Cryopreservation media for use in assisted reproductive technology procedures, for use in fertility treatments, for in vitro fertilization purposes; Cryopreservation media for use in in vitro fertilization, comprising sperm freezing medium, in vitro fertilization medium, and cryoprotectants; Kits for cryopreservation of gametes, comprising sperm freezing medium, in vitro fertilization medium, cryoprotectants
Intent to Use: The applicant has a bona fide intention, and is entitled, to use the mark in commerce on or in connection with the identified goods/services.

International Class 009: Imaging apparatus and instruments for use in assisted reproductive technology procedures, for use in fertility treatments, for in vitro fertilization purposes; Micromanipulation systems for use in assisted reproductive technology procedures, for use in fertility treatments, for in vitro fertilization purposes; Laser systems for use in assisted reproductive technology procedures, for use in fertility treatments, for in vitro fertilization purposes; Confocal microscopy systems for embryo assessment; Micromanipulation systems for assisted hatching and other embryo manipulations; Laser systems for assisted hatching and other embryo manipulations; Environmental control equipment for use in assisted reproductive technology procedures, for use in fertility treatments, for in vitro fertilization purposes; Incubators for laboratory use in the fields of assisted reproductive technology procedures, fertility treatments, and in vitro fertilization; Incubators, namely, constant temperature and humidity incubators for laboratory use in the fields of assisted reproductive technology procedures, fertility treatments, and in vitro fertilization; Gas incubation systems for laboratory use in the fields of assisted reproductive technology procedures, fertility treatments, and in vitro fertilization; Monitoring, measuring, and control equipment for use in the monitoring, measuring, and controlling of gas concentration within the chamber of an incubator for laboratory use in the fields of assisted reproductive technology procedures, fertility treatments, and in vitro fertilization; Vibration control or isolation systems for laboratory equipment used in the fields of assisted reproductive technology procedures, fertility treatments, and in vitro fertilization; Anti-vibration tables and platforms for laboratory equipment used in the fields of assisted reproductive technology procedures, fertility treatments, and in vitro fertilization; Laboratory equipment and supplies used in the fields of assisted reproductive technology procedures, fertility treatments, and in vitro fertilization; Laboratory equipment and supplies, namely, pipettes, catheters, cannulas, needles used in the fields of assisted reproductive technology procedures, fertility treatments, and in vitro fertilization; Downloadable or recorded software for aiding in the provision or performance of assisted reproductive technology procedures and fertility treatments, for aiding professionals who provide or perform assisted reproductive technology procedures and fertility treatments
Intent to Use: The applicant has a bona fide intention, and is entitled, to use the mark in commerce on or in connection with the identified goods/services.

International Class 010: Medical imaging apparatus and instruments for use in assisted reproductive technology procedures, for use in fertility treatments, for in vitro fertilization; Surgical apparatus and instruments for use in assisted reproductive technology procedures, for use in fertility treatments, for in vitro fertilization; Medical devices for use in assisted reproductive technology procedures, for use in fertility treatments, for in vitro fertilization; Medical apparatus and instruments for use in assisted reproductive technology procedures, for use in fertility treatments, for in vitro fertilization; Catheters and parts and fittings therefor for use in assisted reproductive technology procedures, for use in fertility treatments, for in vitro fertilization; Embryo transfer catheters and parts and fittings therefor; Needles for medical purposes for use in assisted reproductive technology procedures, for use in fertility treatments, for in vitro fertilization; Surgical needles for use in assisted reproductive technology procedures, for use in fertility treatments, for in vitro fertilization; Ovum pickup needles; Pipettes for use in assisted reproductive technology

procedures, for use in fertility treatments, for in vitro fertilization; Cannulas for use in assisted reproductive technology procedures, for use in fertility treatments, for in vitro fertilization; Micromanipulation instruments for use in assisted reproductive technology procedures, for use in fertility treatments, for in vitro fertilization; Embryo biopsy instruments; Laser systems for assisted hatching and other embryo manipulations for use in assisted reproductive technology procedures, for use in fertility treatments, for in vitro fertilization; Incubators for use in assisted reproductive technology procedures; Incubators used for in vitro fertilization purposes; Vibration control or isolation systems for medical equipment used in the fields of assisted reproductive technology procedures, fertility treatments, and in vitro fertilization; Anti-vibration tables and platforms for medical equipment used in the fields of assisted reproductive technology procedures, fertility treatments, and in vitro fertilization

Intent to Use: The applicant has a bona fide intention, and is entitled, to use the mark in commerce on or in connection with the identified goods/services.

International Class 042: Scientific research and development in the fields of assisted reproductive technologies, fertility treatments, and in vitro fertilization; Quality control for others in the fields of assisted reproductive technologies; Testing the functionality of apparatus and instruments used in assisted reproductive technology procedures, used in fertility treatments, used in in vitro fertilization; Product testing of apparatus and instruments used in assisted reproductive technology procedures, used in fertility treatments, used in in vitro fertilization; Performance testing of apparatus and instruments used in assisted reproductive technology procedures, used in fertility treatments, used in in vitro fertilization; Providing on-line non-downloadable software for aiding in the provision or performance of assisted reproductive technology procedures and fertility treatments, for aiding professionals who provide or perform assisted reproductive technology procedures and fertility treatments; Software as a service (SAAS) services featuring software for aiding in the provision or performance of assisted reproductive technology procedures and fertility treatments, for aiding professionals who provide or perform assisted reproductive technology procedures and fertility treatments

Intent to Use: The applicant has a bona fide intention, and is entitled, to use the mark in commerce on or in connection with the identified goods/services.

The owner's/holder's proposed attorney information: Joseph R. Dages. Other appointed attorneys are Amy B. Berge; Marianna L. Markley; Jason H. Raff. Joseph R. Dages of Gray Ice Higdon, PLLC, is a member of the XX bar, admitted to the bar in XXXX, bar membership no. XXX, and the attorney(s) is located at

Suite 201
3939 Shelbyville Road
Louisville, Kentucky 40207
United States
502-625-2865(phone)
502-561-0442(fax)
jdages@grayice.com

The docket/reference number is HATH-0106.

Joseph R. Dages submitted the following statement: The attorney of record is an active member in good standing of the bar of the highest court of a U.S. state, the District of Columbia, or any U.S. Commonwealth or territory.

The applicant's current Correspondence Information:

Joseph R. Dages

PRIMARY EMAIL FOR CORRESPONDENCE: jdages@grayice.com

SECONDARY EMAIL ADDRESS(ES) (COURTESY COPIES): mmarkley@grayice.com

Requirement for Email and Electronic Filing: I understand that a valid email address must be maintained by the applicant owner/holder and the applicant owner's/holder's attorney, if appointed, and that all official trademark correspondence must be submitted via the Trademark Electronic Application System (TEAS).

A fee payment in the amount of \$1400 has been submitted with the application, representing payment for 4 class(es).

Declaration

☐ **Basis:**

If the applicant is filing the application based on use in commerce under 15 U.S.C. § 1051(a):

- The signatory believes that the applicant is the owner of the trademark/service mark sought to be registered;
- The mark is in use in commerce and was in use in commerce as of the filing date of the application on or in connection with the goods/services in the application;
- The specimen(s) shows the mark as used on or in connection with the goods/services in the application and was used on or in connection with the goods/services in the application as of the application filing date; and

- To the best of the signatory's knowledge and belief, the facts recited in the application are accurate.

And/Or

If the applicant is filing the application based on an intent to use the mark in commerce under 15 U.S.C. § 1051(b), § 1126(d), and/or § 1126(e):

- The signatory believes that the applicant is entitled to use the mark in commerce;
 - The applicant has a bona fide intention to use the mark in commerce and had a bona fide intention to use the mark in commerce as of the application filing date on or in connection with the goods/services in the application; and
 - To the best of the signatory's knowledge and belief, the facts recited in the application are accurate.
- ☒ To the best of the signatory's knowledge and belief, no other persons, except, if applicable, concurrent users, have the right to use the mark in commerce, either in the identical form or in such near resemblance as to be likely, when used on or in connection with the goods/services of such other persons, to cause confusion or mistake, or to deceive.
- ☒ To the best of the signatory's knowledge, information, and belief, formed after an inquiry reasonable under the circumstances, the allegations and other factual contentions made above have evidentiary support.
- ☒ The signatory being warned that willful false statements and the like are punishable by fine or imprisonment, or both, under 18 U.S.C. § 1001, and that such willful false statements and the like may jeopardize the validity of the application or submission or any registration resulting therefrom, declares that all statements made of his/her own knowledge are true and all statements made on information and belief are believed to be true.
