

CONFIRMATORY ASSIGNMENT

WHEREAS **ALIPOORMAZANDARANI, Niloofar;**

PERRY, Mitchell Robert;

CARLSON, Michael;

HAZIN, Khatera; and

MARTIN, Jessica

hereinafter referred to as "Assignors", are inventors for certain new and useful improvements in an invention described and set forth in a PCT International patent application entitled **COMPOSITIONS OF CATIONIC POLYACRYLAMIDES, CATIONIC POLYMER-SUFACTANT AGGREGATES AND GLYCEROL BASED SURFACTANTS AND METHODS FOR THEIR USE IN FLOCCULATION** (herein after the "Invention") filed on October 20, 2023 and assigned application number PCT/CA2023/051402 and claiming priority to a United States provisional patent application entitled **COMPOSITIONS OF CATIONIC POLYACRYLAMIDES, CATIONIC POLYMER-SUFACTANT AGGREGATES AND GLYCEROL BASED SURFACTANTS AND METHODS FOR THEIR USE IN FLOCCULATION** filed on October 20, 2022 and assigned application no. 63/417,989 (hereinafter referred to as the "Application");

AND WHEREAS the Assignors have agreed to sell, assign and transfer and have sold, assigned and transferred all of their right, title and interest in and to the Invention and all patent rights throughout the world in connection therewith, including any letters patent which may be granted in connection with the Invention, to and unto:

CARBONET NANOTECHNOLOGIES INC.
301-980 George Street
Vancouver, British Columbia
Canada V6A 0H9
(the "Assignee");

NOW, THEREFORE, TO ALL WHOM IT MAY CONCERN, be it known that, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged by the Assignors, the Assignors have sold, assigned, transferred and set over, and hereby do sell, assign, transfer, and set over, unto the Assignee all of their right, title, and interest in and to the Invention, all changes, improvements, and advancements relating to the Invention, the Application, all patent applications and patents relating to any of the foregoing, including all divisionals, continuations, continuations-in-part, international applications, national phase entry applications, renewals, substitutions, conversions, prolongations, extensions, provisionals, and/or reissues of and/or

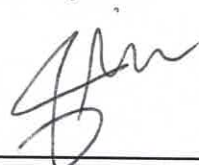

relating to any of the foregoing in all countries, regions, and other jurisdictions throughout the world, all rights to file any of the foregoing patent applications, all rights arising under any and all intellectual property treaties throughout the world in relation to any of the foregoing, all rights of priority and priority claims resulting from or related to any of the foregoing, all patents issuing on and/or from any of the foregoing, and all rights to sue for and recover damages, including royalties, for any past, present or future infringement of any patent application or patent identified above (collectively hereinafter the "Assigned Patent Rights"), the right, title, and interest to be held and enjoyed by said Assignee and Assignee's successors and assigns as fully and exclusively as the right, title, and interest would have been held and enjoyed by said Assignors had an assignment and transfer not been made, to the full end and term of any and all of the Assigned Patent Rights. Assignors represent and warrant that Assignors have the full right to convey the entire right, title, and interest herein sold, assigned, transferred, and set over to the Assignee, that there are no rights or interests outstanding inconsistent with the right, title, and interests granted herein, and that Assignors have not granted or provided and will not grant or provide to others any right, title, or interest inconsistent with the right, title, and interest granted herein, said Assignment effective at least as early as **19 October 2023**.

Assignors further agree that the Assignors will, without charge to the Assignee, or Assignee's successors and assigns, but at the expense of the Assignee, or Assignee's successors and assigns, cooperate with the Assignee, or Assignee's successors and assigns, in the prosecution of the Application and/or applications related to said Assigned Patent Rights, execute, verify, acknowledge, and deliver all such further papers and/or documents, including applications for patent, registration, or other rights and for the reissue thereof, and instruments of assignment and transfer thereof, and will perform such other acts as Assignee, or Assignee's successors and assigns, lawfully may request, to obtain and/or maintain any and all of the Assigned Patent Rights and to vest title thereto in said Assignee, or Assignee's successors and assigns.
