The Inventors are inventors of inventions entitled "HER3-BINDING ANTIBODY-DRUG CONJUGATE" (the **'Inventions'**), which are the subject matter of United States provisional priority patent application numbers 63/436730 filed on 3 January 2023 and 63/459061 filed on 13 April 2023 (the **'Patent Applications'**).

IT IS AGREED as follows:

1. Assignment

In consideration of the sum of SGD \$1 (receipt and sufficiency of which the Inventors expressly acknowledge), each of the Inventors hereby assigns to the Assignee absolutely all of their right, title and interest in, to and arising from the Inventions and the Patent Applications, including (without limitation):

- (a) the right to claim priority from the Patent Applications;
- (b) the right to file and prosecute international, national and regional applications in any country or territory in the world linked to the Patent Applications, and the rights to all matter contained in such applications (the '**Regional Applications**');;
- (c) the right to file and prosecute divisional applications, continuations and continuations-in-part of all Regional Applications, and the rights to all matter contained in such applications (the '**Divisional Applications**');;
- (d) the absolute entitlement to any patents granted pursuant to all Regional Applications and the Divisional Applications for their full period, including any re-issues, re-examinations, renewals, extensions and Supplementary Protection Certificates; and
- (e) the right (in any relevant court of law, patent registry or other office) to bring, make, oppose, defend, appeal proceedings, claims or actions and obtain relief (and to retain any damages recovered) in respect of any infringement, or any other cause of action arising from ownership of the Invention, the Patent Applications and any patents granted on any of the applications filed as aforesaid in sub-clauses (a) through (d), whether occurring before, on or after the date of this Assignment.

2. Further assurance

At the Assignee's expense, each of the Inventors will promptly execute and deliver such documents and perform such acts as may be required for the purpose of giving full effect to this Assignment.

3. Counterparts

This Assignment may be executed in any number of counterparts, each of which when executed will constitute a duplicate original, but all the counterparts will together constitute the one Assignment.
