Serina Proteasa MMP
(2, 7, 9, 14)

The diagram shows a sequence alignment of two protein sequences. The first sequence, RSR-2295 (SEQ ID NO: 7048), is ...EAGRSANHTPAGLTGP. The second sequence, RSR-3213 (SEQ ID NO: 7628), is ...EAGRSASHTPAGLTGP. A bracket above the sequences indicates they are related to Legumaina. A bracket below the sequences indicates they are related to Serina Proteasa and MMP. The MMP domain is further specified as (2, 7, 9, 14).
