

ASSIGNMENT

WHEREAS, **Stephen ZANO, Daniel Forrest COMISKEY** (each referred to as “Assignor”) have/has invented certain inventions (“Invention(s)”) known as **RAAV PRODUCTION METHODS**, as set forth in the following “Application(s)”:

☒ PCT International Application No. **PCT/US2024/13683** filed on January 31, 2024;

WHEREAS, **Sarepta Therapeutics, Inc.**, a corporation formed under the laws of Delaware, whose mailing address is 215 First Street, Cambridge, Massachusetts 02142 (“Assignee”) is desirous of acquiring or confirming the acquisition of the entire right, title, and interest in and to said Invention(s) and all rights thereto:

NOW, THEREFORE, for good and valuable consideration: (i) Assignor hereby confirms and agrees that Assignor has previously sold, assigned, and transferred to Assignee via a prior agreement Assignor’s entire right, title, and interest in the Invention(s), patents, including certifications of inventions, inventor’s certificates, and any other forms of protection granted on any Invention(s) in the United States, other countries, or under any international convention, agreement, protocol, or treaty, including those filed under the Paris Convention for the Protection of Industrial Property, The Patent Cooperation Treaty, the Hague Convention, or otherwise, (collectively, “Patents”); applications therefor (whether provisional, converted provisional, utility, design, plant, utility model, non-provisional or otherwise); and rights described in paragraphs (a) through (g) below; or (ii) to the extent Assignor has not previously sold, assigned, and transferred to Assignee via a prior agreement Assignor hereby sells, assigns, and transfers to Assignee Assignor’s entire right, title, and interest in:

- a) The Invention(s);
- b) The above-identified Application(s);
- c) The right to file applications for Patent in the United States or other countries claiming the Invention(s), including all rights under the Hague Convention, the Paris Convention for the Protection of Industrial Property, and under the Patent Cooperation Treaty, and all rights of claiming priority in any country or regions of the world;
- d) Any applications for Patent in the United States, other countries, or regions claiming the Invention(s);
- e) Any applications for Patent in the United States, other countries, or regions claiming priority to, or the benefit of, at least one of the applications for Patent identified above or any applications for Patent claiming the Invention(s), including any national phase applications, priority applications, substitute applications, divisions, continuations, and continuations-in-part;
- f) Any provisional or other right to recover any and all past, present, and future damages, including royalties, for any and all past, present, and future infringements of any application for Patent identified in preceding paragraphs (b) to (e) and any and all Patents granted based thereon in the United States and all other countries or regions;

- g) Any Patents of the United States or other countries that may be granted for or on any application for Patent identified in preceding paragraphs (b), (d), and (e), including any reissues, reexaminations, revivals, renewals, and extensions, and supplemental protection certificates of said Patents.

All such rights, title, and interest are to be held and enjoyed by the Assignee, its successors, legal representatives, and assigns to the same extent as all such rights, title, and interest would have been held and enjoyed by the Assignor had this sale and assignment not been made. The terms and covenants of this assignment shall be binding upon the Assignor and its heirs, legal representatives and assigns.

Assignor hereby requests that any assigned Patent(s) issuing or granting in the United States, other countries, or under any international convention, agreement, protocol, or treaty, be issued or granted in the name of the Assignee, or its successors and assigns, for the sole use of said Assignee, its successors, legal representatives, and assigns.

Assignor agrees to execute all papers necessary in connection with the above-identified application(s) and Patent(s) and also to execute separate assignments in connection with such application(s) and Patent(s) as the Assignee may deem necessary or expedient, and to make all rightful oaths and declarations, and generally do everything possible to aid Assignee to obtain and enforce for its own benefit proper patent protection for the Invention(s) in any and all countries and regions. Such cooperation by Assignor shall include prompt production of pertinent facts and documents, giving of testimony, execution of petitions, oaths, specifications, declarations or other papers, and other assistance all to the extent deemed necessary or desirable by said Assignee (a) for perfecting in said Assignee the right, title and interest herein conveyed; (b) for filing, prosecuting or maintaining any of the assigned Patents; (c) for filing, prosecuting or maintaining applications for reissuance of any said assigned Patents; (d) for interference or other priority proceedings involving said assigned Patents or Inventions; and (e) for legal proceedings involving said Inventions or assigned Patents, including without limitation reissues and reexaminations, IPRs, opposition and other post-grant proceedings, cancellation proceedings, priority contests, public use proceedings, infringement actions and court actions; provided, however, that reasonable expenses incurred by Assignor in providing such cooperation shall be paid for by said Assignee.

Assignor agrees to waive all rights to invalidate, oppose, nullify, reexamine, reissue, or otherwise challenge the validity, enforceability, or scope of any claim(s) of the above-identified application(s) and Patent(s) in any administrative or court proceeding or effort anywhere in the world.

This instrument will be interpreted and construed in accordance with the laws of the Commonwealth of Massachusetts, without regard to conflict of law principles. In the event that any provision of this Assignment is found to be invalid, void, or unenforceable, unless such provision materially affects the intent and purpose of this Assignment, such invalidity,

voidability, or unenforceability shall not affect the validity of this Assignment nor the remaining provisions herein.

Assignor represents that: (i) Assignor was a lawful owner of an undivided interest in the entire right, title, and interest in and to the Invention(s) at such time said prior agreement was executed; (ii) to the extent Assignor has not previously sold, assigned, and transferred to Assignee via a prior agreement, at the time of execution and delivery of this Assignment, Assignor is a lawful owner of an undivided interest in the entire right, title, and interest in and to the Invention(s); and (iii) Assignor has not entered and will not enter into any assignment, contract, or understanding in conflict herewith.

Assignor hereby grants the patent practitioners associated with **CUSTOMER NUMBER 154896** the power to insert in this assignment any further identification that may be necessary or desirable in order to comply with the rules of the United States Patent and Trademark Office for recordation of this document.

Assignor hereby represents that he/she understands that the patent practitioners associated with **CUSTOMER NUMBER 154896** are the legal representatives of, and attorneys for, the Assignee, and are NOT the legal representatives of, and attorneys for, the Assignor.
