1. The first step is to identify the problem or question that needs to be answered. This involves understanding the context and the specific requirements of the task.

NAME OF DEPARTMENT	FUNCTION
SATISFACTION	2

It is important to note that the results of this study are based on a cross-sectional design. While this design allows for the identification of associations between variables, it cannot establish causality. Therefore, the results suggest a need for further research, including longitudinal studies, to explore the causal relationships between the variables studied.
