

ASSIGNMENT

Whereas, Bo Yang and Peter M. Woyciesjes, "Assignors", made the inventions described in United States Provisional Patent Application titled Low Electrical Conductivity Heat Transfer Fluid, filed on March 7, 2023, and assigned Application No. 63/450,506;

Whereas, Prestone Products Corporation, having a place of business at 69 Eagle Road, Danbury, Connecticut 06810, "Assignee", desires to acquire the entire right, title and interest in and to the inventions and the patent application identified above, and all patents that may be obtained for the inventions and that may be obtained from the patent application;

Now, therefore, in consideration of valuable and legally sufficient consideration, the receipt of which by the Assignors from the Assignee is acknowledged, the Assignors have sold, assigned and transferred, and do sell, assign and transfer to the Assignee, the entire right, title and interest, for the United States and all countries outside of the United States, in and to the inventions and the patent application identified above, and any patents that may issue for the inventions in the United States; together with the entire right, title and interest in and to the inventions and all patent applications and patents issuing therefrom, including the full right to claim for any such application all benefits and priority rights under any applicable convention; together with the entire right, title and interest in and to all continuations, divisions, renewals and extensions of any of the patent applications and patents defined above; together with the right to recover all damages, including, but not limited to, a reasonable royalty, by reason of past, present, or future infringement or any other violation of patent or patent application rights; to have and to hold for the sole and exclusive use and benefit of the Assignee, its successors and assigns, to the full end of the term or terms for all such patents. The Assignors hereby sell, assign, and transfer the entire right, title and interest to the Assignee as of the day of filing the application identified above.

The Assignors hereby covenant and agree, for both the Assignors and the Assignors' legal representatives, that the Assignors will assist the Assignee in the prosecution of the patent application identified above; in the making and prosecution of any other patent applications that the Assignee may elect to make covering the inventions identified above; in vesting in the Assignee like exclusive title in and to all such other patent applications and patents; and in the prosecution of any interference which may arise involving the inventions, or any such patent application or patent; and that the Assignors will execute and deliver to the Assignee any and all additional papers which may be requested by the Assignee to carry out the terms of this Assignment.

In acknowledgement of the above, the Assignors have executed this Agreement.
