

ASSIGNMENT

THIS ASSIGNMENT is by and among SHEN, WEI YONG residing at 18 Grey Street, Carlton, New South Wales 2218, Australia; and ZHANG, JINZHONG residing at 47 Persimmon Walk, Orinda, California 94563, United States of America (collectively, "Assignor") and ELUMINEX BIOSCIENCES (SUZHOU) LIMITED, a company established under the laws of the P. R. China and having a place of business at B7-401, 218 Xinghu Street, Suzhou Industrial Park, Suzhou, Jiangsu 215123, China ("Assignee").

The Assignor are co-inventors of one or more inventions (the "Inventions") described in:

A PCT Patent Application entitled "MULTISPECIFIC FUSION PROTEINS TARGETING ANGIOGENIC AND INFLAMMATORY FACTORS", which was filed on September 11, 2023 with the Application No. PCT/CN2023/118036 ("Application");

The Assignee desires to acquire the entire right, title and interest in and to the Inventions and the Application, and in and to any patents (collectively, "Patents") that may be granted for the Inventions and Application in any and all countries and regions in the world.

Assignor acknowledges and agrees that the Inventions are service inventions made during the term of Assignor' employment by Assignee. Therefore, Assignor acknowledges and agrees that Assignee owns the entire right, title and interest in and to the Inventions and any and all patent applications and patent rights deriving from or relating to the Inventions by operation of law pursuant to the laws of the People's Republic of China and other applicable laws upon creation of the Inventions.

For valuable consideration, the receipt and sufficiency of which Assignor acknowledges, Assignor hereby confirms the sale, assignment, and transfer to Assignee, its successors, legal representatives and assign, of the entire right, title and interest in and to: the Inventions, the Application, and any Patents; any divisions, continuations, continuations-in-part, non-provisional and national phase applications of the Application, and any other applications claiming priority rights from the Application; any other applications filed for the Inventions; any reissues, reexaminations, or extensions of any and all Patents; the right to file patent applications directly in the name of Assignee (in countries where such filings are permissible); the right to claim priority rights deriving from the Application; and the right to recover and take all such proceedings as may be necessary for the recovery of damages or otherwise in respect of all past, present or future acts of infringement or alleged infringement of the rights assigned and transferred herein (collectively, the "Rights"), whether now existing or hereafter arising.

Assignor warrants that they have not done and will not do anything to encumber the Rights. Assignor acknowledges and agrees to not sign any writing or do any act conflicting with this assignment, and, without further compensation, sign all documents and do such additional acts as Assignee deems necessary or desirable to: perfect Assignee's enjoyment of the Rights; prepare and prosecute the Application or any other applications for Patents; conduct proceedings regarding the Rights, including any reissues, reexaminations, inter partes review, opposition and any other post-grant proceedings, cancellation proceedings, public use proceedings, litigation, invalidation or derivation proceedings; or perfect or defend title to the Rights; or enable the Assignee to enjoy to the fullest extent the Rights in any and all countries and regions in the world, or under any international convention, agreement, protocol, or treaty. Assignor requests the Commissioner of Patents or any other office of similar authority to issue any Patents that may be issued on the Inventions to Assignee. Assignor acknowledges and agrees that Assignee shall have the rights to further assign or otherwise transfer any and all Rights to any third party and Assignor waives any right of first refusal that he or she may have for acquiring such Rights in the event of such assign or transfer to a third party.
