

ASSIGNMENT

WHEREAS, **Intervet Inc. ("Assignor")**, a Corporation with offices at 126 East Lincoln Ave., 07065 Rahway, New Jersey, United States of America, owns certain rights, title and interest in and to the invention described in an application for patents having the Attorney Docket Number indicated above and the following title:

RECOMBINANT INSULIN PRECURSOR,
as described in US Provisional Application Number **63/597,822**,
filed on **November 10, 2023** ("Invention");

WHEREAS, **Intervet International B.V., ("Assignee")**, a Corporation with offices at Wim de Körverstraat 35, 5831 AN Boxmeer, the Netherlands desires to acquire from the Assignor all rights in and to the Invention outside the United States of America;

WHEREAS, under the terms of the Research and Development Cost Sharing Agreement between Assignor and Assignee dated December 23, 2002 ("Agreement"), Assignee is entitled to beneficial ownership of the results of R&D for all countries outside the United States of America.

NOW THEREFORE, in for good and valuable consideration provided under the Agreement, the receipt and sufficiency of which are hereby acknowledged, Assignor hereby assigns to Assignee its entire right, title, interest, property and benefit in and to the Inventions and the associated patent application(s) in and for all countries outside United States and its territorial possessions, including

any and all rights relating thereto that may arise at law, all rights of action resulting from prior infringement or other unauthorized use thereof,

any and all applications corresponding to the Inventions outside the United States, whether in the form of the designation of countries other than the United States in PCT applications, national and regional patent applications, divisions, continuations, re-examinations, re-issues and extensions thereof,

any and all letters patents and like industrial property registrations that may issue, be granted or result from said corresponding applications for the Inventions outside the United States (hereinafter referred to as the Patents), and

any and all rights of priority exercisable outside the United States resulting from the filing of the patent application(s) associated with Inventions, the said corresponding applications and any previously filed applications in respect of the Inventions under international conventions, treaties or otherwise outside the United States, the same to be held and enjoyed as fully and exclusively as the same would have been held and enjoyed by Assignor had this assignment not been made;

AND ASSIGNOR, on behalf of itself and its successors, assigns, nominees, or other legal representatives, does hereby covenant and agree to perform all lawful acts and duties and to execute and

deliver without further consideration such further lawful assignments, instruments, assurances, applications and other documents as may reasonably be required by said Assignee, or by its successors, assigns, nominees, or other legal representatives, to file patent application(s) associated with Inventions, obtain said Patents and vest or secure the same in Assignee, and in Assignee's successors, assigns, nominees or other legal representatives.

AND ASSIGNOR does hereby authorize any official whose duty it is to grant patents or industrial property registrations, to grant said Patents to the Assignee, and to Assignee's successors, assigns, nominees or other legal representatives.

AND ASSIGNOR, on behalf of itself and its successors, assigns, nominees, or other legal representatives, does hereby authorize said Assignee, its successors, assigns, nominees or other legal representatives, including its patent agents, to amend the present assignment document to insert or correct the filing date, serial number or other identifying information of the associated patent application(s) and/or Patents as may be needed to record same.

IN WITNESS WHEREOF, Assignor has by its authorized signing officer executed this assignment, and Assignee has by its authorized officer accepted this assignment.
